

Amith Babu

Software Developer

Phone: 7025497100 | **Email:** amithbabu.offcl@gmail.com

LinkedIn: <https://www.linkedin.com/in/amith-babu-0170561b3/>

Summary

Results-driven Software Developer with over three years of experience, specializing in multiple programming languages and frameworks. Started with ColdFusion, contributing to ERP development (AutoHub Management), later transitioned into Shopify development, and recently focused on AI chatbot development with Python. Adept at adapting to new technologies and delivering scalable solutions.

Experience

Software Developer

Digital Mesh Softech India P Limited, Kochi | Dec 2021 - Present

Key Responsibilities & Achievements:

- Developed **AutoHub Management ERP** system using ColdFusion, optimizing operations for vehicle sales businesses.
 - Built and customized **Shopify integrations** using PHP and Node.js, enhancing e-commerce functionality.
 - Created interactive **React components** for Shopify-based applications.
 - Developed **AI chatbots** using Python, RASA, Mistral, Llama, and GPT API.
 - Recognized as an **Emerging Talent** and awarded for outstanding performance.
 - Conducted **training sessions** to upskill team members.
-

Projects

AutoHub ERP – EgmSA

- Developed modules for **inventory tracking, order management, and financial reporting**.
- Designed optimized **database structures** for efficient data retrieval.
- Created **custom reports and dashboards** to enhance business insights.
- Improved **application performance** through query optimization and caching.
- Collaborated with **QA teams** to ensure smooth deployment and bug-free releases.

Shopify Development & Migrations

(NatureMade, Sprinkles, Vestis, Pacific Angler, Lago)

- Built and customized Shopify integrations using **Core PHP, Laravel, Lumen**, and Node.js, enhancing e-commerce functionality.
- Led **Shopify migrations**, ensuring seamless data and app transitions.
- Optimized **POS app integrations** for retail sales and inventory management.
- Developed **custom Shopify apps and scripts** for automated business processes.

AI Chatbot Development (Ongoing)

- Building **AI-powered chatbots** using Python, RASA, GPT API, Gemini, and Llama.
- **Exploring document chunking, embedding, and vector search** for intelligent responses.
- **Developing autonomous AI agents using Google ADK** for dynamic task execution and decision-making.

Skills

Technical Skills:

- **Languages & Frameworks:** PHP, JavaScript (Node.js, React), Python, ColdFusion
- **AI & Machine Learning:** RASA, GPT API, Gemini, Mistral, Llama
- **E-commerce Development:** Shopify (API Integration, POS Apps)
- **Cloud & DevOps:** GCP, Cloudflare, Git
- **Data Handling:** Bulk Data Processing, Database Optimization, API Development

Soft Skills:

- **Team Collaboration:** Worked across multiple projects with diverse teams
- **Project Management:** Agile methodology, sprint planning, and cross-functional teamwork
- **Problem-Solving:** Debugging, troubleshooting, and performance optimization

Education

- **BSc IT**
Center For Computer Science And Information Technology (CCSIT), Thrissur
August 2018 – April 2020
