Kakkanad, Ernakulam, Kerala

TECHNICAL SKILLS

- **Backend Developing** (Python, C++, Java)
- **Generative AI** (OpenAI, Anthropic, Deepseek)
- **RAG implementation** (Azure, AWS)
- **Agentic AI** (LangChain, LangGraph, CrewAI)
- **Databases** (AWS DynamoDB, MySQL)
- **Cloud storages** (Azure blob storage, AWS S3)
- **Messaging systems** (AWS SNS, Kafka)
- **Machine learning and deep learning** (TensorFlow, PyTorch)
- **Data handling** (Pandas, NumPy, Scikit-learn)
- **Image processing** (Yolo v8)
- **Git/GitHub**
- **Prompt engineering**

EDUCATION

B.Tech in Computer Science with Artificial Intelligence (2020-2024)

Muthoot Institute of Technology and Science
CGPA : 7.58

CBSE Class 12 (2020)

Marthoma Public School, Kakkanad
Score : 92%

CBSE Class 10 (2018)

Marthoma Public School, Kakkanad
Score : 89%

LANGUAGES

- English
- Malayalam

CERTIFICATIONS

- Add on course on **python and django**.
- Add on course on **cyber security and ethical hacking**.
- Workshop on **Multifunctional Bot using Arduino at CET, Trivandrum**.
- **Cambridge Assessment for English**.

PROFILE

B.Tech graduate in Computer Science with specialization in Artificial Intelligence (2020-2024), equipped with over 1 year of experience as a Data Science/Generative AI Engineer at UST Trivandrum. Possesses a strong foundation in Machine Learning, Data Analysis, and Backend Development, with expertise in Python, Generative AI, RAG and Agentic AI frameworks. Demonstrated proficiency in developing AI models, conducting research, and implementing innovative solutions, including generative AI platforms and agentic AI systems. Skilled in leveraging services of Azure, AWS and LLMs to address real-world challenges. Proven ability to collaborate effectively in team environments and manage complex projects with meticulous attention to detail and a commitment to excellence. Seeking to advance my career by contributing to cutting-edge AI initiatives.

WORK EXPERIENCE

Data Science/Generative AI Engineer at UST, Trivandrum, Kerala August 2024 to September 2025 (1 year 1 month).

- Hired as part of the **Innovation team UK**, focusing on building innovative solutions for **clients from UK and US**.
- Contributed to projects involving **Generative AI** and **RAG** for the clients: **Experian, NEXT, Davis Polk and Kyocera**.
- Contributed to an **Agentic AI** project for the client: **Incora**.
- Involved in developing an **AI platform with Generative AI, RAG and Agentic AI capabilities** with the ability for the user to configure and create multiple custom use cases and workflows.
- Developed APIs using **Azure Function App, AWS Lambda and FastAPI**.
- Integrated and worked with multiple LLMs such as **OpenAI, Anthropic, Deepseek and Groq**.
- Leveraged **Azure AI search** services for **chunking, embedding, indexing, vector search, hybrid search and semantic ranking**, and AWS services like **Amazon Bedrock SDK and Boto3 SDK**.
- Used cloud storage services like **Azure blob storage** and **AWS s3 bucket** and databases like **AWS DynamoDB** and **MySQL**.
- Used messaging services like **AWS SNS** and **Kafka**.
- Developed **web scraping** and **web search** tools using **Beautiful soup** and **Google search APIs**.
- Worked with APIs including **ServiceNow, Dynamics CRM**, and **Microsoft Graph API**, to develop different tools.

Internship

Pix Dynamics

- Completed a **1 month internship**. (May 2023)
- Worked with a team in **2 projects for the company**.
- Completed **1 individual project**.

Worked in data preprocessing tasks, gained practice with new tools like Labellmg and json editor, involved in creating ML models using frameworks such as TensorFlow and PyTorch, Used YOLO V8 algorithm for creating an object detection model.

RELEVANT COLLEGE PROJECTS

Multipurpose Agrobot

- Worked with a team to build a prototype of a **fully automated agriculture robot** capable of weeding, seeding, watering, and monitoring atmospheric conditions.
- Attended the **5th International Conference on Innovative Trends in Information Technology 2024 (ICITIIT)**.
- A conference paper on our project was published on **IEEE Xplore**.
