Profile

Results-driven Artificial Intelligence Engineer with a strong foundation in machine learning, deep learning, and natural language processing. Proven experience designing intelligent systems powered by large language models, agentic workflows, and context-aware response generation. Adept at transforming complex requirements into production-ready applications that drive innovation and impact.

Professional Experience

AI Engineer, MITZ AI MINDS PRIVATE LIMITED

2025 Mar – present

- Designed and deployed an **Agentic AI system** with role-based access control, prompt chaining, and workflow approvals based on RAG evaluation(**RAGAS**). Built **dashboards** for each agent to track task progress and decisions, with all actions logged in an **AWS RDS-based audit system**. Integrated **NeMo Guardrails** to ensure output validation, safety, and controlled response generation

Junior Data Scientist,

2023 Nov – 2024 Oct

GAUDE BUSINESS AND INFRASTRUCTURE SOLUTIONS PRIVATE LIMITED

- Developed an HR chatbot using **LangChain AI agents**, allowing recruiters to interact with resume analysis results efficiently.
- Built a resume analyzer using **CrewAI agents**, automating candidate evaluations based on job descriptions, leveraging **LLaMA and Mistral models** for LLM-based processing.
- Created a job description generator leveraging **Gemini AI**, optimizing recruitment workflows.
- Developed a Malayalam-English chatbot using **RASA**, integrating **ChatGPT** as a fallback and **Bhashini** for speech-to-text conversion.
- Built '**Vasu**', a chatbot for **Unnathi (SC/ST and Backward Classes Development Department)**, incorporating **RAG** for advanced response generation.

Data science Intern, Technocolabs Softwares

2023 Sep – 2023 Nov

- Rank Features of A Smart Phone - Build a Python Application to Classify and Rank Dataset: Developed a Python application to classify and rank smartphone features based on diverse criteria, highlighting analytical prowess and programming skills. Designed and executed statistical techniques and machine learning algorithms for feature ranking, enhancing the application's accuracy and relevance.

Data Science Intern, TATA Consultancy Services

2023 Jun – 2023 Aug

- Human Activity Recognition Using Smart Devices: Engineered machine learning algorithms to recognize human activities using sensor data, optimizing accuracy and efficiency. Applied Python for data preprocessing, demonstrating expertise in transforming raw data into valuable insights and predictions. Achieved significant improvements in activity recognition accuracy, leading to enhanced user experience and product quality

Sales Engineer, PROMINENT

2022 Mar – 2022 Oct

- Leveraged MomsCode ERP software to generate precise quotations for potential customers, showcasing in-depth knowledge of software features, quotation processes, and approvals.
- Demonstrated exceptional attention to detail in technical document creation, contributing to the company's reputation for accuracy and professionalism

Education

MSc Electronics, Govt College Mananthavady

2020 – 2022

BSc Physics, AMSTECK Arts & Science College Kalliyassery

2017 – 2020

Skills

- Large Language Models (LLMs)
 - Docker
 - Machine Learning
 - Microsoft Excel
 - Django
 - Flask, Fast API
 - LlamaIndex
 - Git
 - Nemo Guardrails
- Python, R
 - MySQL, PostgreSQL
 - HTML, CSS, Java Script
 - NLP
 - LangChain Agents, Crew ai
 - TensorFlow, PyTorch
 - HuggingFace
 - AWS Cloud
 - ReST APIs

Certificates

Certified Specialist in Data Science and Analytics
ICT Academy of Kerala

Generative AI with Large Language Models
Coursera

Multi AI Agent Systems with CrewAI
Deeplearning.AI
