ABOUT ME

With 4+ years of overall software development experience, including 3+ years in AI development and RAG systems, I specialize in building intelligent, scalable solutions using LangChain, LangGraph, Azure AI Services, Pinecone, and agentic frameworks. My expertise spans LLMs, Python, tool calling, and vector databases, along with strong front-end foundations in React.js and TypeScript. I have contributed to multiple Gen AI projects, leveraging retrieval-augmented and agentic AI approaches to deliver real-world impact, while thriving in fast-paced, innovation-driven environments.

WORK EXPERIENCE

Senior Software Developer on Gen AI

Thoughtminds Pvt Ltd

01/08/2023 – Current | Kochi, India

- Built **Gen AI applications** with **Python, LangChain, LangGraph, and agentic frameworks**.
- Developed **responsive UIs** for AI projects using **React.js and TypeScript**.
- Integrated **AI tools/APIs** including **OpenAI and Azure AI Services**.
- Implemented **RAG pipelines** with **Pinecone and vector databases**.
- Optimized **tool calling workflows** for multi-agent systems.
- Deployed scalable solutions on **Azure cloud**.
- Enhanced client solutions with **AI-driven functionalities**.
- Delivered in **fast-paced start-up environments**, ensuring adaptability and innovation.

React.js Front-End Developer

Ello Talent Marketplace Pvt. Ltd

14/02/2022 – 30/07/2023 | Kochi, India

- Developed and maintained websites using **React.js, JavaScript/TypeScript, and CSS**.
- Fixed bugs, implemented UI changes, and integrated **Kendo UI components**.
- Handled **code merging, PR reviews**, and **deployments on AWS S3**.
- Implemented **authorization APIs** with **Amazon Cognito**.
- Worked independently in a **start-up environment**, strengthening React expertise.

Web Developer Intern

Ello Talent MarketPlace Pvt. Ltd

13/08/2021 – 11/02/2022

Maintained and enhanced the **ello.io** website by adding features, fixing bugs, and supporting QA sessions. Collaborated with senior developers and conducted **platform walkthroughs/demos** for internal teams

EDUCATION AND TRAINING

Graduation / Bachelor of Technology in Electronics and Communication Engineering

Adi Shakara institute of Engineering and Technology , Kalady

15/07/2013 – 05/05/2017

Mattoor Kalady, Ernakulam, Kochi (India)

DIGITAL SKILLS

Coding Skills

Python/Langgraph/Agentic AI/ Langchain/React JS /
Javascript ES6 / Typescript / Python / CSS / LLM /
AWS Web Services / AZURE Cloud /Docker

Operating Systems

Windows / Linux / Android

HONOURS AND AWARDS

Spot Award for Stand-Out Performer

Thoughtminds Pvt Ltd (Q1 Awards)

24/03/2025

Thermax Project | Recognized for **commitment to skill enhancement, leadership initiative, and valuable contributions** to project success.

Thoughtminds Certificate of excellence

Thoughtminds pvt Ltd

26/06/2024

Recognized for **outstanding contributions to the Thermax project**, demonstrating advanced technical expertise and commitment that significantly enhanced project success.

HOBBIES AND INTERESTS

I Spent My Free Time On

- **Gen AI experimentation and prototyping**, exploring **LangChain, LangGraph, and agentic AI frameworks**
- Trying out and building with **new AI agents**
- **Listening to and singing music**

XIIth Standard / Secondary Education

ST. Joseph Public School Pattanakad

14/10/2010 – 22/05/2013

Pattanakad, Cherthala Alappuzha, Alappuzha (India)

Xth Standard / Matricuation

ST. Joseph Public School Pattanakad

07/04/2008 – 13/06/2010

PROJECTS

Thermax AI Studio - Thermax Limited Sales

Enablement Tool

01/04/2024 – Current

Client: Thermax | Projects: AI Studio Initiatives

- **Dr. ConBot** – Architected an **agentic AI service engineer bot** (RAG + agent-based system) capable of handling **image, video, text, and file retrieval**, empowering engineers with multimodal support.
- **Thermax-GPT** – Designed a **ChatGPT-like assistant** with secure file upload, custom content filtering, and compliance to **Thermax-specific privacy needs**, also extending to **image/video generation** via different models.
- **SalesAssist GPT** – Developed a **Gen AI-powered chatbot** providing real-time insights to sales teams by leveraging product literature and knowledge bases, boosting productivity and reducing query resolution time.
- **VisionExtract OCR** – Implemented an **OCR tool with intelligent data extraction**, enabling accurate, efficient document processing with minimal manual effort.
- **Polyglot Translator** – Built an **AI-driven automated translation service** supporting multiple languages and formats (Word, PDF, PPT), streamlining multilingual communication.
- **TrainIQ Bot** – Created an **interactive QA chatbot** that transforms video training sessions and lectures into conversational interfaces, offering context-driven insights and instant answers.

Ello Talent Marketplace Pvt. Ltd - Multi-Module Freelance and Recruitment Platform

13/07/2021 – 30/07/2023

Developed a **multi-module talent marketplace** with dedicated portals for freelancers, recruiters, clients, and providers, enabling profile creation, job posting, candidate management, and matchmaking.

Tech Stack: React.js, TypeScript, Redux.js, Material UI, CSS, HTML, Bitbucket, Kendo UI, Calendly, Airtable
