Professional Summary

Experienced AI/ML Python Developer with 3 years of expertise in designing, developing, and deploying machine learning and AI solutions. Proficient in **Python**, **FastAPI**, and backend development, with hands-on experience in building and integrating **RESTful APIs**, **data pipelines**, and scalable applications. Skilled in **AI/ML model development, evaluation, and deployment** using **PyTorch**, **TensorFlow**, and **scikit-learn**, as well as working with **databases** and **cloud services**. Adept at collaborating with cross-functional teams in **Agile environments** to deliver robust, production-ready solutions that drive business value. Passionate about leveraging **AI/ML technologies** to solve complex problems and build innovative products.

SKILLS

Python, FastAPI, Flask, Machine Learning, Deep Learning, NLP, Computer Vision, LLM, VLM, Hugging Face, Langfuse, LangTree, MCP, RESTful API Development, API Integration, MySQL, Pandas, NumPy, Postman, Git, Agile Methodology, Visual studio code, JIRA, Git, Linux, Model Development, Model Deployment, Data Pipelines, Software Design, Debugging.

WORK EXPERIENCE

Infosys Limited • Trivandrum, Kerala, India • 10/2022 - Present Senior Systems Engineer

Designed, developed, and deployed **AI/ML models** for real-time applications, including **computer vision**, **NLP**, **recommendation systems**, and **YOLO-based object detection**.

Developed and maintained **backend services and RESTful APIs** using **Python**, **FastAPI**, **Flask**, and **Django**, ensuring high performance and scalability.

Implemented **large language models (LLMs)** and **vision-language models (VLMs)** for advanced AI solutions using **Hugging Face**, **Langfuse**, **LangTree**, and **MCP frameworks**.

Built and optimized **data pipelines, preprocessing workflows, and databases** using **MySQL**, **PostgreSQL**, **MongoDB**, **Pandas**, and **NumPy**.

Developed **predictive AI models** to forecast bug resolution and issue prioritization using historical ticket and GitHub commit data.

Created an **AI-powered automated testing framework for set-top boxes**, executing uploaded test cases, navigating the UI, and validating functionality using computer vision and automation scripts.

Conducted **model evaluation, testing, and deployment**, ensuring accuracy, reliability, and performance of AI/ML systems in production environments.

Integrated **APIs for AI services**, performing end-to-end testing to validate request/response structures and ensure seamless functionality.

Collaborated with **cross-functional teams in Agile environments**, gathering requirements, analyzing business needs, and designing technical solutions.

Utilized **Azure for deployment** of AI models and backend services.

Ensured high code quality through **unit testing, debugging, and version control with Git**.

Participated in **daily stand-ups, sprint planning, and code reviews**, contributing to continuous improvement and product excellence.

Experience in **UAT, client interactions, and requirement analysis**, translating business needs into technical specifications for AI/ML applications.

EDUCATION

Bachelor of Technology

Jyothi Engineering College • Thrissur, Kerala, India

CERTIFICATIONS

Infosys Certified Applied Generative AI Professional

Internal Certification

Infosys Certified Python Developer

Internal Certification

Infosys Certified Media Engineering Professional

Internal Certification

AWARDS & SCHOLARSHIPS

1. **Cisco Webex Virtual Hackathon Winner 2021.**
2. **Selected for Kerala-Development and innovation strategic Council YIP Hackathon.**
3. **Got Rise insta awards for projects from Infosys**
