Kanchipuram, India | +91 6383865619 | vishwaloganathan724@gmail.com

PROFESSIONAL SUMMARY

AI Engineer with 1 year of professional experience specializing in Python backend, LLM-based automation, and Retrieval-Augmented Generation (RAG) pipelines. Skilled in building scalable AI systems using AutoGen, LangChain, LangGraph, CrewAI, and MCP (Model Context Protocol). Experienced with Azure OpenAI models, vector databases, and workflow orchestration. Passionate about agentic systems, AI workflow engineering, and backend automation.

EXPERIENCE

AI Engineer – SCH Infotech

Dec 2024 – Present | Chennai, India

- Developed AI backend systems leveraging Azure OpenAI models for scalable task automation.
- Built RAG pipelines with LangChain and LangGraph for intelligent contextual retrieval.
- Created multi-agent frameworks using AutoGen and CrewAI.
- Integrated MCP for interoperability between agents and external systems.
- Engineered FastAPI and Flask services with modular async performance.
- Managed Git-based CI/CD workflows for deploying AI APIs.
- Runner-up at company hackathon for *Meditation Agent on Call* project.

AI Engineer Intern – SCH Infotech

Sep 2024 – Dec 2024 | Chennai, India

- Assisted in developing AI-based backend services using Azure OpenAI APIs.
- Contributed to the creation of RAG pipelines and agentic frameworks.
- Supported senior engineers in building modular FastAPI-based systems.

App Developer – C2C (C2Chicken)

Mar 2024 – Apr 2024

- Built a cross-platform restaurant billing system with real-time tracking and POS features.

App Developer (Flutter) – Fragmentum

Aug 2022 – Feb 2023

- Led Flutter development for a waste management app, improving user experience and workflow efficiency.

PROJECTS

AI Automation Platform (AutoGen + CrewAI + Azure OpenAI)

- Built a multi-agent orchestration system using Azure GPT models, LangChain, and LangGraph.
- Implemented a RAG pipeline with FAISS and Chroma for context-aware document retrieval.

Scrap Collection App (Junkee)

- Developed a Flutter app for doorstep scrap pickup with live order tracking.

Stock Market App with Community (XVII)

- Built an interactive platform with Groww API and real-time chat for investor engagement.

EDUCATION

B.Tech – Information Technology

Sathyabama University (2020 – 2024)

CGPA: 9.22

TECHNICAL SKILLS

Languages & Frameworks: Python, FastAPI, Flask, LangChain, AutoGen, CrewAI, LangGraph, MCP

AI/ML Stack: Azure OpenAI, OpenAI APIs, Retrieval-Augmented Generation (RAG), Vector Databases (FAISS, Pinecone, Chroma)

Backend & Tools: Git, Docker, Postman, CI/CD, REST APIs

Frontend & App Development: Flutter, Dart, Firebase, Provider, GetX

Design & Productivity: Figma, Canva, Notion

ACHIEVEMENTS & AWARDS

- Runner-up – SCH Infotech Hackathon (2025): Developed a *Meditation Agent on Call* using Azure GPT and AutoGen.
- White Paper Presentation – Entrepreneurship Challenge (2023): Secured 2nd place in Computer Science Department.
- Designathon – UXMint (2022): Won 1st place for innovative UI/UX design concepts.
