

Abhirami V V

MERN STACK DEVELOPER

📞 +91 8606301771 | ✉️ abhiramiofficial123@gmail.com | 🌐 GitHub | 🔗 LinkedIn

Profile Summary

Innovative self-taught MERN Stack developer with expertise in React, MongoDB, and Node.js. Specializes in crafting user-centric web applications that excel in performance, quality, and responsiveness. Known for clean, maintainable code and a keen eye for identifying and resolving technical issues. Combines strong problem-solving skills with a mastery of CSS and UI kits to deliver exceptional user experiences.

Work Experience

Ortmor Agency

Full Stack Developer

Kochi, Kerala

Dec 2023 - Present

- Leveraged **Next.js** framework to build performant, server-rendered React applications, enhancing SEO and user experience.
- Developed a **JavaScript**-based application, leveraging modern ES6+ features to ensure a seamless, synchronized user experience.
- Developed performance enhancements by optimizing rendering and data fetching, resulting in a significant improvement in application responsiveness.
- Implemented responsive and modular styling through **SCSS**, leveraging its advanced features such as variables, nesting, and mixins to create a scalable and maintainable codebase.
- Implemented a scalable data visualization solution leveraging **React** and **MongoDB** for efficient exploration of large datasets.

Qiddiya(Qiddiya e-sports world cup)

Ortmor Agency

- Developed a comprehensive MERN stack application featuring a **React** front-end styled with **SCSS**, complemented by a robust back-end built with **Express.js** and **Node.js**, ensuring a seamless and efficient full-stack user experience.
- Implemented a MERN-based gaming platform integrating VR, typing, and IoT floor tile games. Implemented **RESTful** APIs for game data and user management, developed vending machine control via **SerialPort IO**, and created a **React** dashboard for real-time score display, utilizing **MongoDB** for efficient data management.
- Integrated the **Replicate** module in the backend for dynamic creation and generation of avatar images, enhancing user personalization while optimizing performance through efficient image processing and delivery.
- Implemented a scalable data visualization solution leveraging **React** and **MongoDB** for efficient exploration of large datasets.
- Deployed a robust **JavaScript**-based application on **DigitalOcean**, utilizing **Amazon S3** for media storage and **MongoDB Atlas** for database management, ensuring scalable performance and efficient data handling across the platform.

Yas In School

Ortmor Agency

- Developed a comprehensive MERN stack application featuring a **React** front-end styled with **SCSS**, complemented by a robust back-end built with **Express.js** and **Node.js**, ensuring a seamless and efficient full-stack user experience.
- Implemented a MERN-based gaming platform. Implemented **RESTful** APIs for game data and user management. **MongoDB** for efficient data management.
- Deployed a robust **JavaScript**-based application on **DigitalOcean**, utilizing **Amazon S3** for media storage and **MongoDB Atlas** for database management, ensuring scalable performance and efficient data handling across the platform.
- Developed a **JavaScript**-based application, leveraging modern ES6+ features to ensure a seamless, synchronized user experience.
- Implemented a QR code scanning feature using the **qrscanner** module in the front-end, enhancing the **JavaScript**-based application with seamless data capture capabilities and improving overall user interaction.

Projects

GitHub

Event Management (MERN Stack)

- A web Application for booking events and with three modules User, Vendor and Admin.
- Implemented real-time communication functionality using **Socket.io**, enabling live chat between users and vendors, thereby enhancing interactivity and improving customer support within the application.
- Developed an efficient **REST API** with **Node.js** and **Express** that facilitates events availability checks, event bookings, and user account management for the event booking platform.
- Leveraged **Tailwind CSS** and React to build user interfaces that are intuitive, responsive and visually appealing, enhancing user experience.
- Developed and maintained database infrastructure using **MongoDB** and Mongoose.
- User Module: Implemented functionality for users to view events, book for specific dates, rent event spaces, and manage their bookings efficiently
- Vendor Module: Vendor can add new events with associated location and update status of the event.
- Admin Module: Admin has the privilege to edit information. It provides a CRUD management system, allowing for Create, Read, Update and Delete operations.
- **Technical Skills:** React, Tailwind CSS, Node.js, JavaScript, MongoDB, Redux

GitHub

sko

- A website for buying various categories and brands of shoes.
- Integrated **Razorpay** payment gateway for secure online transactions.
- Implemented server-side rendering with **hbs** to improve SEO and initial page load performance for web applications.
- Developed a robust user management solution using **MongoDB**.
- **Technical Skills:** Node.js, MongoDB, JavaScript, CSS

Mini Projects

GitHub | Live

Weather App

- Application designed to provide users with up-to-date information about current weather condition.

GitHub

Registration

- Developed a registration application allowing users to register for specific departments and receive an email verification during registration. Users cannot register for a department if the registration count for that department reaches 30.
- Utilized **Node.js** and **Express.js** for server-side development, implementing **RESTful APIs** for user authentication and team subscription management.

Skills

Front-End: JavaScript, React.js, Next.js, SCSS, CSS, Tailwind CSS and Material-UI

Back-End And DataBase: Node.js, Express and MongoDB

Familiar Skills: Figma, AWS, digitalocean, wordpress, Nginx, MySQL and PostgreSQL

Education

MERN Stack Development

2022 - 2023

Brototype, Calicut

Msc Computer Science

2020 - 2022

Kannur University
