TECHNICAL SKILLS & INTERESTS

- **Programming Languages:** Python, PHP, C++, C, Java, R, JavaScript.
- **Web Frameworks:** FastAPI, CakePHP, Flask, Django, React.js.
- **Testing and Collaboration Tools:** Git CLI, Jira, PHP Unit, PyTest, Junit, Selenium, Postman.
- **Cloud Services/Databases:** GCS, AWS, MySQL, PostgreSQL, MongoDB, SQL Server.
- **DevOps and CI/CD tools:** Docker, Jenkins, Kubernetes, Helm, Terraform, Datadog, Apache Kafka.
- **Scripting:** Shell

WORK EXPERIENCE

Kinaxis

Sep 2023 – Apr 2024

Co-op Test Developer

Ottawa, Canada

- Developed comprehensive integration tests for a **Spring Boot** application, targeting Azure Blob Storage and Google Cloud Storage.
- Employed **Java**, **JUnit**, **Docker**, **Apache Kafka** and **Kubernetes** to establish a reliable and scalable testing framework, enhancing application performance and reliability.

ZoomRx Healthcare Technology Solutions Pvt Ltd

Oct 2021 – Jul 2022

Senior Software Development Engineer-1

Chennai, India

- Led the conceptualization, design, and creation of Perxcept, a passive monitoring software application for healthcare-related web activity, using **Python**, **JavaScript**, and **FastAPI**, generating \$400K in revenue in the first year.
- Mentored and managed a team of two software engineers in **Python** and **FastAPI**, contributing to the development and maintenance of the monitoring tool.
- Cooperated closely with the business team to align project requirements with business objectives, ensuring the monitoring tool met all needs.
- Spearheaded the development of the healthcare software application from scratch, adhering to industry best practices and privacy regulations, attracting 100 healthcare professionals within the first 3 months.

ZoomRx Healthcare Technology Solutions Pvt Ltd

Jun 2019 – Oct 2021

Software Development Engineer

Chennai, India

- Created a software tool to convert presentations into slides and transcripts, enhancing information sharing using **Flask**, **Python** and **OpenCV**.
- Co-developed the HCP-PCR software solution, recording interactions between Health Care Providers and patients using **Python**, **FFmpeg** and **CakePHP**, which contributed to generating \$1M in revenue in one year.
- Collaborated effectively with a team of 5, ensuring the seamless implementation and widespread adoption of the software system.
- Researched and developed software from scratch, maintaining compliance with privacy regulations and industry best practices, successfully meeting **HIPAA** compliance.
- Trained and supervised one intern, providing practical experience in software development and project management.

ZoomRx Healthcare Technology Solutions Pvt Ltd

Jan 2019 – May 2019

Software Development Engineer – Intern

Chennai, India

- Assisted in the development of a Fraud Identification System using **CakePHP** and **PHP** under senior engineer guidance, contributing to a \$50K reduction in operational costs.

PROJECTS

FileFetchPro

Jan 2023 – Apr 2023

Course Project

Windsor, Canada

- Created a server-client project with sockets in **C** to enhance file transfer performance and reduce server load, effectively demonstrating understanding of Network Principals and Linux Programming.

Student Management System

Jan 2023 – Apr 2023

Course Project

Windsor, Canada

- Engineered a comprehensive student management system using **Django, React.js, Python** and **MongoDB**, integrating a secure payment gateway and dynamic course management functionalities.
- Developed an intuitive, automated test-taking platform for efficient online assessments, enhancing academic experience.
- Implemented best practices for system security and user data protection, ensuring a reliable and safe user environment.

PUBLICATION

A Formal Modeling Approach for QoS in MQTT Protocol

Sep 2018 – Apr 2019

Bachelor Thesis under Dr. Jinesh M. Kannimoola

Kerala, India

- Formally modeled, analyzed, and verified the Quality of Service (QoS) levels of the MQTT protocol.
- Conducted a thorough analysis of the QoS levels, ensuring the MQTT protocol functioned correctly as specified during communication between components.
- Utilized PROMELA language for formal modeling and SPIN Model Checker for verification.

EDUCATION

University of Windsor

Sep 2022 – Apr 2024

Master of Applied Computing

Windsor, Canada

- Cumulative GPA: 88.4/100.

Amrita Vishwa Vidyapeetham

Apr 2015 – Apr 2019

Bachelor of Technology in Computer Science and Engineering

Kerala, India

- Cumulative GPA: 8.4/10.
