SUMMARY

Full-stack developer with 2.5 years of experience in the MERN stack, including 1.5 years working with PostgreSQL, NestJS, and GraphQL. Skilled in backend development, Next.js, React.js, and experienced with a variety of AWS cloud services, ensuring scalable and secure solutions.

WORK EXPERIENCE

FullStack Developer, LYM Datalabs Pvt Ltd

Jun 2023 - Sept 2024

Skills: Reactjs, Material UI, Nestjs, Postgresql, TypeORM, MongoDB, Mongoose, REST API, GraphQL, AWS, GitBucket, Jira, Turbo Repo

- Initially joined as a MERN stack developer, managing client and freelancer communications for the Alhub project, which was developed by external freelancers.
- Transitioned into backend development, taking full responsibility for all backend repositories across the Alhub project.
- Learned and worked with NestJS, PostgreSQL, REST APIs, and GraphQL, which were the core technologies of the Alhub backend.
- In 2024, took charge of the backend for a new large-scale project, Mai Profile, which utilizes Express.js and MongoDB within a monorepo (Turborepo) architecture.
- For Alhub, managed backend systems built using multiple repositories, overseeing seamless integration and communication between services.
- Utilized a wide range of AWS services, including S3, SES, SNS, and Cognito, to ensure scalability, security, and smooth deployment for both projects.

FullStack Developer, Branding Sparrow software Solutions Pvt Ltd.

Mar 2022 - Mar 2023

Skills: HTML, CSS, Bootstrap, Reactjs, Redux took kit, Context API, Material UI, MongoDB, Mongoose, REST API, Digital Ocean

- Developed e-commerce solutions using the MERN stack.
- Conducted code reviews, ensuring adherence to coding standards and optimized performance.
- Debugged and tested applications manually, ensuring smooth functionality and an improved user experience.
- Worked with frontend design teams on smaller tasks and handled backend integrations.

RF Engineer, Airon Technical Solutions Pvt Ltd.

Mar 2018 - Mar 2020

- Conducted Airtel's 2G project using TEMS software.
- Worked under Nokia's Project all over Kerala.
- Assigned work locations on a daily basis, which required traveling throughout Kerala to locate and evaluate towers.
- Conducted static and drive tests to evaluate tower coverage, network coverage, call quality, internet speed, drop calls, and handover calls.

SELECTED PROJECTS

- **AI-hub** : AL HUB serves as a virtual guide that assists you in locating the coolest hangouts this amazing country has to offer. Our App not only caters to the needs of citizens but also businesses and tourists.
- **Mai-Profile** : A web portal offering cost-effective online profile portfolios and NFC digital cards, allowing users to create, update, and manage their profiles. The platform supports both admin and end-user functionality, integrating Razorpay for payments and various profile options including NFC cards.
- **Kales agro**: An e-commerce platform promoting sustainable agricultural practices and high-quality organic products. The platform connects communities through transparency, innovation, and a commitment to environmental stewardship.

OTHER PROJECTS

- Developed multiple websites using Next.js with a focus on modern web design and performance optimization.
- Built various projects using the MERN stack (MongoDB, Express, React, Node.js) to deliver full-stack web applications.
- Created a chat application utilizing ReactJS, NestJS, and GraphQL, and deployed it using AWS services for scalability and performance.
- Built websites using ReactJS and ViteJS, emphasizing SEO-friendly accessibility and speed.

EDUCATION

B.Tech in Electronics and Communication Engineering Jun 2012 -Mar 2016
M G University - K M E A Engineering College, Edathala.

Computer Science Jun 2010 -Mar 2012
Govt. Higher Secondary School, Edappaly.

ADDITIONAL INFORMATION

- **Programming Languages:** Javascript, Typescript, C++.
- **Languages:** English, Malayalam.
- **Certifications:**
 - Responsive Web design from freeCodeCamp,
 - Backend Development & APIs Certification from freeCodeCamp.
 - NestJS Zero to Hero -Modern Typescript Backend development from Udemy.
 - MongoDB Node.js Developer Path from MongoDB.
 - Front End Development Libraries from freeCodeCamp.
- **Hobbies/Activities:** Coding, Photography, Reading, Video/Photo Editing, Content Creation.
