Matriculation , Sivagiri Vidhyaniketan, Aluva	
<i>Achievement: 89%</i>	2018

SKILLS

Technical Skills Microsoft Office Suite, Data Analysis: Excel, Recruitment Tools: LinkedIn Recruiter
Soft Skills Analytical thinking, communication, presentation skills, Decision-making, Coaching.

EXPERIENCE

Intern January 2025 – February 2025

Kerala State Planning Board, Thiruvananthapuram.

Research intern on the topic: Sea erosion risk at vypin beaches: evaluating panchayat level response and challenges

Intern July 2024 - September 2024

TULIP(The Urban Learning Internship Programme) Eloor Municipality

PROJECTS

SUSTAINABLE LIVELIHOOD ISSUES OF FARMERS: My research question is 'How does the variability of household livelihoods drive the sustainability of farming systems and the sub-sequent recommendations in terms of options to improve the performance of these farming systems?' We hypothesize that the households that have the lowest level of capital have the least sustainable farming systems and that recommendations to increase sustainability are specific to each type of household.

SEA EROSION RISK AT VYPIN BEACHES: EVALUATING PANCHAYAT LEVEL RESPONSE AND CHALLENGES: This research analyses the sea erosion risk at Vypin beaches, examining its causes, impacts, and mitigation efforts. The study assesses the **socioeconomic impact** on coastal communities, highlighting livelihood losses and displacement. It evaluates **government interventions** like sea walls and CRZ regulations, identifying gaps in their effectiveness. The research suggests **sustainable solutions**, including eco-friendly erosion control and community-driven coastal management, to ensure long-term coastal resilience.

SUSTAINABLE LIVELIHOOD ISSUES OF COASTAL COMMUNITIES IN VYPIN: KERALA: Research on Vypin Island, Kerala, reveals struggles of coastal communities in achieving economic stability and environmental security. Residents face challenges like inadequate infrastructure, climate change, and limited access to government aid. Government support programs are hindered by lack of awareness, complex procedures, and bureaucratic issues.

COURSES AND CERTIFICATION

- Qualified **NET** (National Eligibility Test) for PhD admissions of June 2024.
- Publication of paper entitled on **sustainable livelihood issues of coastal communities in Vypin, Kerala**.
- Publication of paper entitled **sea erosion risk at vypin beaches: evaluating panchayat level response and challenges** in Kerala State Planning Board.
- Awarded with the certificate of '**Content Marketing Principles for Business**' from Semrush Academy.
- Successfully completed and certified in **Google Analytics Certification** by Google.
- Presented research paper titled "Attaining sustainability through innovations in business with special reference to automobile industry", conducted by St. Francis Institute of Management and Research (SFIMAR), Mumbai.

- Successfully completed the Massive Open Online course on Organic Farming with 4 credits in the examination held in 2022, conducted by Mahatma Gandhi University, kottayam.
