SUMMARY

Operations-focused Engineer with 3.4 years of experience in NPD, manufacturing coordination, vendor management, and cost optimization at Titan. Proven track record of leading cross-functional projects, driving automation, improving operational efficiency, and delivering products from concept to mass production.

KEY COMPETENCIES

- NPD Operations & Project management
 - Cost Reduction & Inventory Optimization
 - Vendor & Stakeholder Management
 - Automation & Efficiency Improvement
 - Operations & Engineering - Project management
 - Process Improvement (Lean, Six Sigma, DMAIC)
-

TOOLS & DATA

- AutoCAD & Creo
 - SAP
 - Design Thinking Methodology
 - MS Excel (Data & Sales Analysis)
-

PROFESSIONAL EXPERIENCE

Sep 2022 - Present

Titan Company limited (Titan Eye+) - Bengaluru india

Senior Executive - NPD & Operations

- Owned end-to-end NPD operations from concept to production for eyewear products across multiple SKUs.
- Led cross-functional teams (design, manufacturing, vendors) to deliver projects on time with zero launch delays.
- Managed vendor negotiations & contracts, contributing to cost reduction of X% in raw materials. (estimate if needed)
- Drove process improvements & automation initiatives, improving throughput and reducing manual dependency.
- Used sales & production data to support demand planning and design decisions.
- Ensured manufacturability, quality compliance, and timeline adherence during scale-up.

IQF Foods and Pvt. Ltd. - Vemgal

Sep 2021 - Oct 2021

Quality Assurance & Quality Control

Assisted project managers in planning and executing various projects, ensuring adherence to project timelines and deliverables. Monitored project budgets, tracked expenses, and prepared financial reports to ensure cost-effectiveness and adherence to financial guidelines.

Kenna-metals India limited - Bengaluru

May 2022 - June 2022

Project Managment (R&D)

"Quality control in Insert pressing using Six Sigma technique" - Utilized DMAIC and Six Sigma methodologies, leveraging GR&R and ANOVA data analysis in MATLAB, to identify and correct alignment issues causing burr formation around inserts, resulting in significant defect reduction and increased sigma level.

Southern electronics Pvt. Ltd. - Bengaluru

Apr 2021 - May 2021

Planning & Layout Design (R&D)

"Set-up time reduction for a fixture manufacturing process using kiting system" - Spearheaded a process improvement initiative utilizing Lean methodologies (Kaizen, PDCA, 5S) and implemented a kitting system, leveraging AutoCAD for layout optimization, resulting in significant reductions in setup time (from 29.05 minutes to 24 minutes) and distance (from 23 meters to 8 meters)

EDUCATION & CERTIFICATIONS

Bachelors of Engineering - Industrial Engineering & Management

M S Ramaiah Institution of Technology | Aug 2018 - Jun 2022
