

Vishnuvardhan Kummetha

MARKETING, INNOVATION & ENTREPRENEURSHIP | MAR TECH

CAREER OBJECTIVE

Passionate marketer aiming to leverage expertise in MarTech to drive business growth through strategic planning, data analysis, and innovative marketing solutions. Committed to contributing to the success of dynamic organizations by embracing emerging technologies and enhancing customer experiences.

EXPERIENCE

Digital Marketing Executive: Anarghya Communications Pvt Ltd. (06/2023 – 08/2024)

I oversaw all facets of digital and social media marketing, encompassing website development, content creation, SEO, SEM, backlinking, Google AdWords campaigns for enhanced search engine visibility, and managing various social media platforms to promote brand awareness of company products.

INDUSTRY LIVE PROJECT

Social media marketing: Myhotelschool (10/2022 - 01/2023)

As a social media marketing intern, I assisted in creating engaging content, managing multiple platforms, and coordinating campaigns. I leveraged analytics tools to track performance, generate reports, and provide actionable insights. Additionally, I collaborated with influencers, engaged with the online community, and optimized strategies for increased brand visibility and user engagement.

Digital Marketing Project (02/2022 – 05/2023)

As an intern, I was in responsible of all areas of digital marketing. This included website development, content creation, SEO, SEM, back linking, and running Google Ad Words to rank higher on search engine pages, as well as lowering the bounce rate of customers visiting the company's website at Knotyourtype.in.

Plant Disease identification using a mobile application: Tcs (12/2019 – 06/2020)

As an intern I developed a mobile application that can diagnose plant or leaf ailments using a smartphone's camera while simultaneously delivering a remedy for the injured leaf or plant, therefore saving farmers' harvests from wastage using tensor flow models at Tata Consultancy services, Hyderabad.

ACADEMIC PROJECTS

Design thinking project: Brand factory (12/2021-01/2022)

I learnt how to apply design thinking to find a feasibility solution to challenges that the brand manufacturer was having with customer retention and the management of the clothes supply chain at retail locations.

Request for proposal project: Biggies Burger (04/2022-07/2022)

I successfully addressed and overcame the various challenges that Biggies Burger outlet's facing in terms of customer retention, customer acquisition, and other related digital marketing areas. Using my expertise and experience, I was able to analyze the underlying issues and implement effective strategies to improve the company's overall performance.
