- Tamil (Intermediate)

ASWATHY P J

COMPUTER SCIENCE ENGINEER

PROFILE

Dynamic and results-driven Computer Engineering graduate with a passion for leveraging technology to drive innovation and solve complex challenges. Equipped with a solid foundation in both hardware and software aspects of computing, along with proficiency in programming languages and cutting-edge technologies. Adept at designing, implementing, and optimizing systems to enhance efficiency and performance. Skilled communicator with a collaborative mindset, able to thrive in multidisciplinary teams to deliver impactful solutions. Eager to contribute technical expertise and creativity to drive technological advancements in a dynamic professional environment.

EDUCATION

JKK Muniraja College of
Technology

Bachelor of engineering in computer science

- As a Computer Engineering graduate, I bring a comprehensive understanding of both hardware and software systems, coupled with practical problem-solving skills.
- Proficient in programming languages such as Python, Java, and C++, I have a solid foundation in algorithm design, data structures, and software development methodologies.
- My coursework and projects have equipped me with expertise in digital systems design, embedded systems, and computer architecture.
- Committed to continuous learning and staying abreast of emerging technologies to drive advancements in the field.

Higher secondary

GHSS kallar

- I have cultivated a strong foundation in various scientific disciplines, including biology, chemistry, physics, and environmental science.
- Throughout my academic journey, I demonstrated a passion for inquiry-based learning, critical thinking, and problem-solving.
- I actively participated in laboratory experiments, research projects, and extracurricular activities that enriched my understanding of scientific concepts and their real-world applications.
