PERSONAL PROFILE

As a passionate Computer Science and Engineering student, I possess a strong foundation in team management, communication, critical thinking, game development, web development, data structures, digital marketing, data analysis etc. With experience in leading teams and mentoring peers, I've developed effective leadership skills. Essential knowledge in C, Java, Python and SQL. My passion for digital marketing, game development, project management, mentoring, and data science drives me to contribute to and grow within a forward-thinking team, where I can leverage my skills and knowledge to drive success.
