SUMMARY!

I recently completed my Data Science internship at Luminar Technolab, Kochi, gaining hands-on experience in Machine Learning, Deep Learning, NLP, and Power BI. Additionally, I have studied Robotic Process Automation (RPA) to automate workflows and optimize business processes.

EDUCATION

University of Calicut

Aug 2021– Apr 2024

BSC in Computer Science

Coursework: Computer Architecture, Data Structures, Computer Networks, Computer Organization And Architecture, DBMS, Computational Theory

EXPERIENCE

Data Scientist Intern, Luminar Technolab– Kochi, Kerala

May 2024– Jan 2025

- Utilized Python libraries like pandas numpy for data cleaning, transformation, and feature engineering.
- Developed and implemented Machine Learning models and Deep Learning using libraries such as Scikit learn, TensorFlow, or PyTorch.
- Created interactive visualizations and reports using tools like Power BI, Matplotlib, and Seaborn to provide actionable insights.

PROJECTS

Liveliness-Detector-for-Face-Recognition-System-Real-vs-Fake

[Link](#) 

- Free Anti Spoofing / Liveliness Detector is a crucial component within a Face Recognition System designed to distinguish between real human faces and fake representations, such as photographs or videos.
- Tools Used:Python, opencv, and YOLO

Classification-image-into-Anime-Cartoon-or-Human

[Link](#) 

- project utilizes a Convolutional Neural Network (CNN) to classify images into three distinct categories: anime, cartoon, and human. Through careful training and optimization, our CNN model.
- Tools Used: Keras, Streamlit, Pandas, Skimage, NumPy

Cryptocurrency Dashboard

[Link](#) 

- This project involves creating an interactive Cryptocurrency Dashboard using Power BI. The goal is to enable users to explore historical, present, and potential future trends in cryptocurrency markets.

TECHNOLOGIES

Languages: Python, MySQL, Basics of HTML/CSS.

Tools: PyCharm, VS Code, Google Colab , MySQL Workbench , UiPath.

Skills: ML, DL, NLP, Power BI Visualization, Microsoft Excel, OpenCV, YOLO,LLM, Gen AI, RPA.

ACHIEVEMENTS

Completed coursework in Fundamentals of Artificial Intelligence, gaining foundational knowledge in AI concepts, algorithms, and applications.

LANGUAGE KNOWN: English, Malayalam ,Tamil
