Digital marketing-Oneteam solutions

- Assisted in planning and executing SEO strategies to improve website ranking and organic traffic.
- Created and scheduled social media posts across platforms like Instagram and Facebook to boost engagement.
- Supported email marketing campaigns using tools like Mailchimp to generate leads and improve open rates.
- Gained hands-on experience with Google Ads and Meta Ads, including keyword research and campaign optimization

Personal Project

Spicy Prawns Seafood Restaurant Website

Created a fully responsive restaurant website using WordPress and SeedProd for a fictional brand, Spicy Prawns. Designed engaging visuals, integrated contact and menu sections, and optimized pages with Rank Math for SEO. This project improved my skills in web design, SEO, and local business branding.
