PROJECTS

SKOOL BEEP

"Skoolbeep is a trusted technology partner offering high-quality, affordable and scalable solutions to schools across India. As a company, we are equally passionate about education and technology.

Our solutions can empower teachers, enhance learning experiences for students, keep parents involved, and help Indian schools become future-ready. SkoolBeep has a whole range of technology solutions that revolutionize every aspect of running a school from integrated classroom solutions to home learning solutions and school management software.

CHIMS - NLC

Contracting projects typically involve agreements between parties for the provision of goods, services, or works. These projects may include construction, renovation, maintenance, consulting, or other services. The purpose of such a project could vary widely depending on the specific goals and objectives set by the parties involved.

CHIMS - HCMS

HCMS is a financial institution. The main aim behind the establishment was to spread the message of life insurance in the country. Also, it was required to mobilize people's savings.

LYFORG

Patient Mobile Application allows you to take control of your healthcare journey. With this app, you can easily set up your profile, add family members and add the doctor's appointment daily checkup details .

UN-EIA Iraq

Mobile Application used for the minings and environment protection agreements and policies awareness in Iraq.

One View

One View is a platform that helps entrepreneurs efficiently manage and coordinate their startup process. It streamlines business setup by organizing tasks, tracking progress, and ensuring smooth communication. With a user-friendly interface, One View simplifies the journey for new business owners, making startup management easier and more efficient.

Soeazy

Soeazy simplifies sustainable construction by providing tools for energy efficiency, resource management, and eco-friendly design. It helps architects and developers build greener, more efficient structures with ease.
