Employment

- | | | |
|----------------|--|-------|
| 2023 – Present | Business Development Executive at Thinkpalm Technologies | Kochi |
|----------------|--|-------|

- **Identify and Qualify Opportunities:** Conduct market research, network, and outreach (cold calls, emails, social media) to identify potential clients, qualify leads, and assess alignment with the company's products/services.
- **Client Engagement:** Initiate contact with prospects, pitch the company's offerings, deliver value propositions, and follow up to convert leads into long-term client relationships.
- **Market Research and Strategy Development:** Analyze industry trends, competitors, and customer needs, while identifying new markets and growth opportunities to develop strategies for expanding the company's customer base and revenue.
- **Collaboration and Sales Alignment:** Work closely with sales and marketing teams to align strategies, prepare business proposals, negotiate deals, and close sales to meet targets.
- **Client Solutions and Reporting:** Collaborate with internal teams (marketing, product, operations) to deliver tailored solutions, while regularly reporting on sales activities, meetings, and progress toward business development goals.

- **Acquire Customers and Promote Services:** Acquire international customers, upsell products/ services to existing ones, and find new leads to promote the company's sales and services.
- **Reporting and Campaign Management:** Prepare reports and presentations, manage LinkedIn lead generation, and handle email campaigns.
- **Team and Sales Operations Management:** Oversee team management, sales operations, and quality analysis to ensure smooth processes.
- **Vendor Management and Negotiation:** Research vendors to find the best products and prices, establish and monitor vendor standards, conduct meetings and interviews, and negotiate contracts with both new and existing vendors.
- **Vendor Relations and Market Analysis:** Cultivate relationships with vendors, frequently communicate to address questions, monitor vendor satisfaction, track sales trends, and generate reports on high-performing products.

- Account opening through KYC, Documentation, Identifying new leads, Pitching products/ Services.
