Objective

Passionate and innovative final-year BTech student specializing in Cloud Engineering, AI/ML, and Web3. Skilled in building scalable applications, AI-driven tools, and engaging educational platforms aimed at solving real-world problems.

Education

Toc H Institute of Science and Technology, APJ Abdul Kalam Technological University
Bachelor of Technology in Computer Science and Engineering 2022 – 2026
CGPA: 7.6

Technical Skills

Languages:	Java, PHP, Python, C, C++
Web Development:	React, HTML5/CSS3, JavaScript
Dev Tools:	Git, GitHub, VS Code, Figma
Technologies:	AI/ML, Web3, Cloud Computing, Firebase
Soft Skills:	Project Management, Public Speaking, Team Leadership

Projects

- **Image Classifier** – Developed an AI/ML-based model to classify images with high precision.
[GitHub: ML.CUSAT](#)
- **Timetable Bot** – Built an automated scheduling system for organizing academic routines efficiently.
- **AI-Powered Learning Platform** – Designed a scalable educational tool to support learning in rural areas.
- **Style-to-Content ML Model** – Transformed writing styles into structured learning material.
[GitHub: style_to_content](#)
- **Hostel Management System** – Full-stack cloud-based system for hostel operations.
[GitHub: Hostel-Management](#)

Internships

CPCS, Internship Program
Worked on real-world software development tasks under supervision, gaining hands-on experience in industry tools and workflows. 2022 – 2023

Professional Experience

Gooseberry
Project Manager 2023 – Present

- Led development of AI-based tools and cloud-hosted platforms.
- Coordinated across departments to ensure timely project execution.

Fixware Technologies
Community Manager

- Engaged actively with local and online developer communities.
- Promoted workshops and mentored students on latest technologies.

TinkerHub

Program Lead

- Spearheaded initiatives like AI/ML and cloud computing bootcamps.
- Helped grow a collaborative tech ecosystem among students.

IEEE

Technical Coordinator

- Conducted multiple IEEE-sponsored hackathons and tech talks.
- Mentored juniors in competitive coding and machine learning.

Achievements

- Finalist, Spark Venture Startup Competition (2025)
- Participated for TCS CodeVita (2025 Edition)
- Core Member, Developer Circle – Toc H Institute

Certifications

- Google Cloud Fundamentals: Core Infrastructure *Coursera*
- Python for Data Science and AI *IBM Skills Network*

Declaration

I hereby declare that the information provided above is true to the best of my knowledge.
