

PROFILE

Biotechnology postgraduate with an Advanced Diploma in Clinical Research, specializing in academic content creation, scientific writing, and clear explanation of complex life-science concepts. Experienced in solving subject-related questions, reviewing academic content, and delivering accurate, high-quality solutions within deadlines. Strong foundation in biotechnology, laboratory techniques, and scientific communication, with proven ability to simplify complex topics for students and academic audiences.

SKILLS

- **Scientific Writing & Communication:** Research summaries, manuscripts, literature reviews, thesis writing, data visualization, proofreading, citation management (Mendeley)
- **Clinical Research:** Familiar with trial phases (I-IV), CRFs, protocols, informed consent, and basic ICH GCP E6 compliance.
- **Data Analysis & Tools:** COMSOL Multiphysics, MS Word, Excel, PowerPoint, Canva; experience with structured reporting and result interpretation.
- **Professional Skills:** Analytical thinking, quality-driven writing, deadline-focused execution, and collaborative communication.
- **Laboratory Techniques:** Animal cell culture, microbial methods, PCR, SDS-PAGE, GLP record-keeping and experimental documentation
- **Languages:** English| Hindi| Tamil| Malayalam

PROJECTS

COMPUTATIONAL FLUID DYNAMIC ANALYSIS OF PERFUSION CHAMBER DESIGNED FOR CELL CULTURE

APPLICATION – SCTIMST, Trivandrum

April -Sep2023

- Authored thesis and presentations translating complex CFD simulation results into reader-friendly narratives
- Integrated literature-based analysis to support findings; formatted references using Mendeley
- Maintained well-organized analytical and experimental records to ensure data integrity and traceability.

Isolation of probiotic from milk and milk products – PVT Merit labs, Palarivatom

2021

- Conducted experiments and created structured reports integrating results with literature.
- Simplified methodological explanations for academic evaluation.

EXPERIENCE

INDEPENDENT LEARNER

- Created educational biology content for students, simplifying complex life-science concepts into clear, understandable content.
- Practiced writing science content for diverse audience, maintaining technical proficiency and strengthening written communication during career gap.
- Completed online courses in scientific and medical writing, strengthening research communication and literature review skills

EDUCATION

MSC Biotechnology,	Union Christian College, Aluva ,	CGPA: 3.65/5	2021-2023
BSc Biotechnology,	Sree Sankara College. Kalady	CGPA:8.33/10	2018-2021

CERTIFICATION & COURSES

- Advanced Diploma in Clinical Research (6 months) – Clinilaunch Research Institute, 2025
- Science Communication & Journalism by Scidart Academy
- Scientific Writing in Health Research – ICMR NIE
- Writing in Sciences – Coursera
- Clinical Trials: Good Clinical Practice – Coursera
- Techniques in Molecular Biology – Hi-Media Laboratories Pvt. Ltd
- Writing a Scientific Research Article – Udemy
