ABOUT ME

I'm a passionate video editor with a keen eye for detail and storytelling. I specialize in transforming raw footage into engaging stories that connect with audiences. Whether it's promotional videos, social media content, music videos, or documentaries, I bring creativity, precision, and a deep understanding of pacing and rhythm to every project. Proficient in tools like Adobe Premiere Pro, After Effects, and DaVinci Resolve, I'm always exploring new techniques to elevate my work. Let's create something unforgettable.

- Management

EXPERTISE

- Premiere Pro
- After effects
- Photoshop
- Camera

INTERNSHIP

NAVAKERALA NEWS

Journalist

april 19

I worked as part of the post-production team to edit daily news segments, interviews, and special reports under tight deadlines. I gained valuable experience in fast-paced newsroom environments, where accuracy, speed, and storytelling were essential. My responsibilities included editing raw footage, adding lower thirds and graphics, syncing audio, and preparing content for broadcast and digital platforms using software like Adobe Premiere Pro and Final Cut Pro. This role sharpened my technical skills and taught me the importance of clarity, consistency, and timing in news media.

ADD ON COURSE

Cyber security

I successfully completed a cybersecurity course that provided foundational and practical knowledge in protecting digital systems and data. The course covered key topics such as network security, ethical hacking, malware analysis, cryptography, and risk management.

PERSONALITY

Creative thinker
