Objective

Recent BCA graduate and Business Analytics student with strong knowledge in Excel, Python, and Data Analysis. Looking for an entry-level position where I can utilize my analytical skills, learn new technologies, and contribute to the success of the organization.

Experience

- Zoople technologies** 10/11/2025 - 30/3/2026
Data analytics
Fresher
Business Analytics Student
Fresher with knowledge in Data Analytics, Python, Excel, and Machine Learning.

Education

- Zoople technologies** 2025
Business analytics
- Sree Gokulam SNGM Arts and Science College Thuravur Cherthala Alappuzha** 2025
Bachelor of Computer Applications (BCA)

Skills

- Python
- Excel
- Powerbi
- SQL
- Machine Learning Basics
- Data analysis
- R Language
- Tableau
- Communication skills

Projects

- Machine Learning Model using Scikit-learn**
Developed a Machine Learning model using Python and Scikit-learn to analyze data and make predictions. Performed data preprocessing, data cleaning, and model training using different algorithms. Used libraries like Pandas, NumPy, and Scikit-learn for data analysis and model building. The project helped in understanding supervised learning and model evaluation.
- Sales Data Analysis using Excel**
Analyzed sales dataset using Microsoft Excel. Used Pivot Table, Charts, and formulas to find insights. Created reports to show sales performance and trends.
- Eventify – Event Tracking and Booking System**
Developed a web-based project called Eventify, an event tracking and booking system based on location. The system allows users to find nearby events, check seat availability, and book tickets easily. Users can also search for hotels near the event location and make bookings. This project was developed as part of my college project using basic programming and database concepts. The project improved my understanding of system design, data handling, and user interface.
