PROFILE

Versatile and research-driven professional with hands-on experience training generative AI models on platforms like **Outlier AI** and a solid foundation in data operations from a year at **Amazon** as an ML Data Associate. Holds a Postgraduate Degree in Journalism and Mass Communication, bringing together deep analytical thinking and narrative clarity. Adept at data annotation, validation, and prompt evaluation with a meticulous eye for linguistic nuance. Excels in fast-paced, collaborative environments and is driven by a strong passion for technology, communication, and the evolving impact of AI on human lives.

SKILLS

- Content & Copywriting
- News Writing
- Content Evaluation & Quality Assurance
- Tone, Clarity & Coherence Review
- Multidomain Prompt Writing
- Data Annotation & Classification
- Cross-Domain Research
- Scenario-Based Reasoning
- Ethical Reasoning in AI Contexts
- Cultural Awareness in Content Creation
- Curiosity-Driven Problem Solving

PROFESSIONAL EXPERIENCE

CONTRIBUTOR - GENERALIST (REMOTE), 11/2024 - Current

Outlier AI, IN

- Collaborated with AI research and development teams to train, evaluate, and refine large language models (LLMs) through diverse, domain-agnostic tasks requiring critical thinking, accuracy, and creativity.
- Designed and reviewed prompts, annotated text data, and evaluated AI-generated outputs across topics ranging from education, culture, current events, and general reasoning, contributing to the alignment and performance of generative AI systems.
- Conducted rigorous quality assessments and red-teaming exercises to identify model weaknesses, edge cases, and bias - playing a direct role in enhancing safety, linguistic sensitivity, and factual consistency.
- Applied strong research and communication skills to help bridge the gap between machine output and human understanding, ensuring culturally relevant, globally aware language usage tailored to diverse user bases.

ML DATA ASSOCIATE / CONTENT WRITER, 09/2023 - 09/2024**Amazon**, Hyderabad, IN

- Annotating and labeling speech or text data to train and improve Alexa's machine learning models while ensuring high accuracy in the labeling process to enhance the data quality used in model training.
- Analyzing patterns and trends in data to provide insights that can improve Alexa's performance, working with large datasets to extract relevant information and insights.
- Assisting in developing and fine-tuning Natural Language Processing (NLP) models, providing feedback on existing models' performance, and suggesting improvement areas.

INTERN REPORTER, 01/2023 - 02/2023**Mathrubhumi**, Kochi, Kerala

- Covering a variety of local news stories such as events, community issues, and human interest stories including conducting interviews, gathering information, and writing articles for print and online platforms.
- Assist reporters in gathering information, conducting research, and fact-checking.
- Attend local press meets.

EDUCATION**The English and Foreign Languages University**, Shillong, 01/2023**Master's Degree: Journalism and Mass Communication**

Acharya Institutes, Bangalore, 01/2019**Bachelor's Degree: Commerce**

CERTIFICATIONS**UGC NET (Ph.D. Eligibility Only) – Journalism & Mass Communication***Qualified in December 2024**University Grants Commission, India*

- Successfully qualified for the UGC-NET examination in the subject of Journalism & Mass Communication under the "Eligibility for Ph.D." Only" category, as per the revised UGC regulations.
