About Me

Objective-driven digital marketing executive with a passion for seeking new challenges. Skilled in using mobile marketing strategies, optimising Google AdWords ads, and producing powerful posters. Eager to expand my expertise and contribute to organizational goals at your esteemed company. Seeking an opportunity to harness my skills and drive success in the dynamic field of digital marketing.

Work Experience

DIGITAL MARKETING EXECUTIVE

ABROAD CAREERS | 2022 - 2024

As a digital marketing professional, I was excellent at designing eye-catching posters and managing my company's social media presence. I expertly handled and optimised online advertising campaigns using my knowledge of Google AdWords, Facebook, and Instagram marketing, which increased brand visibility and engagement.

DIGITAL MARKETING EXECUTIVE (Internship)

Code & Hue | 2023 - 2024

Throughout my internship, I developed expertise in crafting research papers, refining proofreading techniques, and analyzing data to inform strategic decisions. My focus predominantly revolved around digital marketing, where I gained hands-on experience implementing various tactics to amplify brand visibility and engage target demographics effectively. This experience not only sharpened my research and analytical skills but also deepened my understanding of digital marketing principles and practices.

Skills

- Ambitious and Mindful
- Social media Managing
- Content creator
- An excellent Copy writer

Certifications

Digital marketing certificate by Hubspot Academy
Digital marketing certificate by Google
Digital marketing certificate by Yeldo mar baselios college

Project

MAJOR PROJECT

ENHANCING EMPLOYEE ENGAGEMENT FOR ORGANISATIONAL PRODUCTIVITY

The project conducted at Torc Infotech aimed to improve employee engagement and organizational productivity by conducting extensive research and data gathering. The study focused on employee feedback systems and addressed issues including bias, confidentiality, and implementation costs. It also looked at the relationship between employee motivation, performance assessment, and overall productivity. The study suggested ways to get around problems including reducing prejudice, improving confidentiality, and expediting feedback methods. It added to the body of knowledge on performance evaluation in the IT sector and provided HR managers and practitioners with useful insights. The initiative provides businesses with doable implementation and ongoing development tactics, eventually boosting worker satisfaction and productivity.
