Class 10TH - 72.2% (State Board)
Sri Aravindar Higher Secondary School
Puducherry

PROJECT DETAILS

Main Project :

Location Based Automated Fire Alarm System

Developed Live-Location based Automated Fire Alarm Systems, Integrating advanced technology such as intelligent fire sensor and GPS for real-time fire detection and precise location identification. Centralized control unit enables swift automated notification to building owners and local fire station, Reducing response time and minimizing fire-related casualties and property damage.

Mini Project : Search Engine

Improved Yioop! search engine using PHP and Apache server, prioritizing usability. Evaluated results with TREC software and Cygwin. Demonstrated expertise in scalable, performance-optimized search engine development, contributing to information retrieval advancements.
