

I am a passionate and dedicated 2D Animator with over 3 years of experience in crafting engaging animations and compelling visual storytelling. Beginning my career as a Motion Graphic Designer, I developed a strong foundation in design, timing, and movement, which naturally led to my transition into full-time 2D animation. At Interval Edutech, where I have been working since May 2022, I specialize in producing educational and promotional content using tools like Adobe After Effects, Duik Angela, Illustrator, and Blender. My skill set includes rotoscoping, digital and machine drawing, and precise element animation. Outside of animation, I stay creatively energized through drawing, gym workouts, and skilled driving, while continuously exploring new techniques to elevate my work.

INTERVAL LEARNING PLATFORM

2D Animator

MAY 2022 – Present

Started as a Motion Graphic Designer and transitioned into full-time 2D Animator with 3+ years of creative experience.

Successfully executed educational and promotional projects at Interval Edutech since May 2022.

Specialized in character animation, rigging (Duik Angela), rotoscoping, digital sketching, and machine drawing.

Proficient in Adobe After Effects, Illustrator, Photoshop, Premiere Pro, Audition, Blender, and DaVinci Resolve.

Managed complete animation pipelines from concept to final output with consistency and creative precision.

- Earned the title “King of Consistency” for delivering high-quality animations under tight deadlines without compromising creativity.
- Recognized for my energy and talent, always bringing a unique spark and vision to each project.
- Achieved a 217K+ reach on content shared through an Instagram page with 160K+ followers, showcasing my ability to engage large audiences through powerful visuals.
- Constantly upskilled myself and contributed to the team’s growth by sharing knowledge and helping junior artists improve their craft.
- This journey has not only refined my skills as an animator but also deepened my passion for visual storytelling and audience connection.
