GeekyAnts India Pvt Ltd

Account Manager

- Manage multiple client projects, ensuring adherence to Sprint plan deadlines and milestones by coordinating with developers.
- Foster seamless collaboration between clients and developers, addressing change requests promptly to ensure project completion within timelines.
- Act as a central point of contact between developers and clients, providing regular updates and facilitating direct communication as needed.
- Drive the establishment of partnership programs with Small and Medium-scale companies to leverage intellectual resources for project success.
- Thoroughly document project processes and compile detailed reports for review on platforms like Clutch, ensuring transparency and accountability.
- Lead UK government tender programs, meticulously evaluating opportunities, budgets, and RFPs to craft compelling proposals.
- Strategically assemble teams of designers, developers, and business analysts to create winning tender proposals, and spearhead their presentation to clients, effectively communicating advantages to secure successful bids.
