PROFESSIONAL EXPERIENCE

Performance Marketing Executive

Aakash Fertility Centre & Hospital | *Aug 2025 - Present | Chennai.*

- Manage and run all digital ad campaigns (Google, Meta, etc.) to drive high-quality leads and boost ROI.
- Handle complete ad strategy — from planning and budgeting to optimization and performance tracking.

Digital Marketing Manager

Weboin Technologies Pvt Ltd | *Jan 2024 - July 2025 | Chennai.*

- Planned, executed, and optimized paid ad campaigns across Meta (Facebook & Instagram) and Google Ads, achieving up to 28% improvement in CPA through A/B testing of creatives, landing pages, and audience strategies.
- Monitored campaign performance in real time to drive data-backed decisions and report KPIs, ROI, and insights to stakeholders weekly.
- Led integrated digital marketing campaigns, aligning with product, creative, and sales teams to deliver 35% increase in qualified leads and maintain consistent brand messaging.
- Implemented advanced tracking systems using custom conversion events and marketing automation workflows, improving data accuracy by 15% and enabling precise audience retargeting.
- Managed client relationships and campaign budgets, delivering tailored digital strategies based on customer needs, competitor analysis, and market trends.
- Contributed to SEO initiatives, both on-page and off-page, to enhance search visibility and drive organic traffic growth.
- Built influencer partnerships and outreach strategies to expand brand reach, increasing engagement across social platforms.
- Collaborated with web developers and designers to ensure marketing assets, landing pages, and tracking setups aligned with campaign goals and user experience standards.

Junior Software Engineer

Tech Mahindra Pvt Ltd | *June 2023 - Oct 2023 | Chennai.*

- Performed functional, regression, and deployment validations using SoapUI and Postman to ensure API integrity and system reliability across UAT, Stage, and Production environments.
 - Collaborated with business users and developers to resolve production and E2E issues, including scheduling calls and gathering necessary data for effective troubleshooting.
 - Investigated system failures by analyzing XPDL flows and API logs to identify root causes and minimize business disruptions.
 - Designed and executed comprehensive test cases aligned with business requirements to validate new functionality and maintain system stability post-release.
-
