EXPERIENCE

Freelance Work | Kerala

(Jan 2024 – Present)

- Achieved measurable improvements in client operations by delivering data-driven insights that supported faster decision-making and efficiency gains.
- Strengthened problem-solving and project management skills through successful delivery of multiple short-term assignments with tight deadlines.

Gotham Newco 1 Limited | Glasgow, United Kingdom (Part Time)

(July 2022-Feb 2023)

Manager

- Managed day-to-day operations, optimizing processes and leading teams, resulting in a 15% increase in customer satisfaction scores and a 20% improvement in operational efficiency.
- Analysed business performance metrics and implemented data-driven strategies, leading to a 12% boost in sales performance and a 25% reduction in service turnaround time.

HR Service Delivery New Associate

(July 2019 – Nov 2020)

Accenture Solutions Pt. Ltd.

- Analysed recruitment data to identify bottlenecks, which reduced time-to-hire by 20% and accelerated end-to-end hiring processes.
- Created and maintained dashboards to track recruitment and workforce metrics, improving reporting speed by 30% and saving over 10 hours per month.
- Conducted rigorous data validation and quality checks, reducing errors in recruitment reports by 25% and ensuring accurate decision-making for leadership.
- Partnered with HR and business leaders to streamline recruitment workflows, increasing overall process efficiency by 15%.
- Delivered monthly and ad-hoc recruitment reports to senior leadership, enabling better workforce planning and forecasting.
- Coordinated with cross-functional stakeholders to enhance data governance practices, strengthening compliance and operational transparency.
- Supported automation initiatives by identifying repetitive tasks and recommending process improvements, contributing to reduced manual effort and higher productivity.
- Trained junior analysts on reporting standards, SQL queries, and Excel techniques, raising overall team capability.
- Worked closely with IT teams to resolve data integration issues, ensuring smooth functioning of dashboards and reporting pipelines.

PROJECTS

Scottish Police Authority: Independent Custody Visiting Scheme - Spearheaded the digitization of the manual custody-visiting scheme at the Scottish Police Authority, transforming traditional paper-based procedures into digital systems. My role involved collaborating with stakeholders to design and implement user-friendly platforms, enhancing efficiency and transparency in custody visitation processes.
