SUMMARY

A passionate and driven digital marketing professional with a background in Electronics and Communication Engineering. Having completed a digital marketing course, I have built strong hands-on skills in SEO, website development, social media management, and content creation. Recently, I gained practical experience specializing in performance marketing, where I worked on real campaigns and developed expertise in running and optimizing ads across platforms. I am eager to apply my knowledge and skills to help brands grow through creative and data-driven strategies. Known for being a quick learner, a team player, and someone who takes initiative to deliver impactful results.
