Objective

Skilled React Web Developer with 22 months of experience in creating and maintaining dynamic web applications. Expertise in front-end technologies such as React, Redux, SASS, and Axios. Proven track record of developing user-friendly interfaces and optimizing performance. Experienced in collaborating with cross-functional teams to deliver high-quality applications.

Experience

Software Engineer, RoadE Labs Pvt Ltd

Nov 2022 – Aug 2024

At RoadE Labs Pvt Ltd, I developed and maintained **responsive web applications** using **React** and **Redux**, collaborating with **UI/UX designers** to create user-friendly interfaces. I integrated **APIs using Axios**, optimized performance for **cross-browser compatibility**, and ensured compliance with **SEO** and **GDPR regulations**. I worked on **admin and user interfaces** for web applications, including a **corporate education platform**, where I built **product websites**, integrated **live classes**, and developed a **quiz feature**. I also optimized **React components**, created **reusable components**, implemented a **payment gateway**, and deployed applications using a **CI/CD pipeline**. Additionally, I conducted **integration testing**, created **unit test cases**, and performed **smoke testing** before QA handover.

Projects:

- In the **Koble** project (<https://www.kobleapp.uk/>), I worked as a **Front-End Developer**, developing the **admin dashboard web application** using **React.js** and **Redux**. I designed and implemented **complex UI components**, integrated **data visualization and reporting features**, and ensured a smooth **user experience** for administrators. I collaborated with **backend developers** for seamless **data flow**, applied **responsive design principles**, optimized **performance and maintainability**, and integrated the **Razorpay** payment gateway for seamless transactions. Additionally, I **individually developed the Koble product website** using **HTML5**, **CSS3**, and **JavaScript**.
- In the **Streamhall** project (<https://www.streamhall.uk/>), I developed both the **admin and participant web applications** for an **ed-tech platform** using **React.js** and **Redux**. My contributions included developing the **quiz feature**, enabling **quiz creation and management**, and implementing functionality to **assign video recordings to live class topics**. I integrated **external APIs** to support **live class features**, including **real-time updates** and **interactive components**. I also created **reusable React components** for the **sidebar**, **notification area**, and other key sections of the admin panel while ensuring the application was **fully responsive and optimized for performance**. Working closely with **UI/UX designers**, I helped create a **user-friendly experience** for both **administrators and participants**. Additionally, I **individually developed the Streamhall product website** using **HTML5**, **CSS3**, and **JavaScript**.
- I also **individually developed the company website** for RoadE Labs Pvt Ltd (<https://www.roadelabs.com/>) using **HTML5**, **CSS3**, and **JavaScript**, ensuring a **modern, responsive, and SEO-friendly design**.

Software Engineer, Intern, RoadE Labs Pvt Ltd

Aug 2022 - Oct 2022

Invoice OCR Converter:

Collaborated with a team to partially develop an automation tool that extracts data from invoices using Optical Character Recognition (OCR) technology and converts the extracted information into Excel format. Utilized OpenCV algorithms for data extraction, and implemented the front end using HTML and CSS. MySQL Workbench was also used for database management, streamlining data processing and improving accuracy.

Education

- Master of Computer Application 2019-2022
 - Union Christian College, Aluva
 - Percentage : 72 %
- B Sc Physics 2015-2018
 - Sree Narayana College, Cherthala
 - Percentage : 73 %
- Higher Secondary - Bio Science 2013-2015
 - S N Trust Higher Secondary School, Cherthala
 - Percentage : 87 %

Skills

Technical Skills: React, Redux, JavaScript, HTML5, CSS3, SASS, Redux Toolkit, React Hooks, SQL.

API Integration: Axios

Tools & Platforms: Netlify, Git, Bitbucket, CI/CD

Other Skills: SEO, GDPR compliance, Responsive Design

Soft skills:

Communication & Collaboration: Teamwork, code reviews, verbal and written communication.

Problem-Solving: Debugging, analytical thinking, performance optimization.

Time Management: Multitasking, meeting deadlines, adaptability.

Leadership: Mentoring, project ownership, proactive improvements.

Attention to Detail: Code quality, testing, UI/UX adherence.

Courses Completed

The Complete Web Developer Course
