PROFILE

Full-stack Node.js developer with expertise in backend development using NestJS and frontend interfaces built with React and Next.js. Proficient in designing and optimizing backend systems, implementing streamlined deployment pipelines, and managing infrastructure with a strong foundation in DevOps practices. Equipped with a versatile skill set to deliver cohesive, high-quality solutions across both backend and frontend environments.

WORK EXPERIENCE

2021 - PRESENT

TATA Consultancy Services (TCS) | Kochi, Kerala

System Engineer

- Developed and managed backend and frontend code, ensuring seamless integration between server-side functionalities and client-side interfaces.
- Conducted Unit and Integration testing and detailed test case development to ensure high-quality, reliable software.
- Managed GitHub pipelines to streamline CI/CD, enabling automated builds, testing, and deployments.

2018 - 2019

Suventure Services PVT LTD | Whitefield, Bangalore

Associate Consultant

- Worked on RESTful API for a game project to exchange real-time data with devices.
- Gained extensive experience with NoSQL databases and data storage solutions.
- Focused on optimizing data delivery performance to manage large user bases effectively.
- Developed backends for various Android apps, managing authentication and authorization processes.
