

GLADSON MS

gladsonsai4@gmail.com | +91-7558031545 | <https://www.linkedin.com/in/gladsonms/>

Professional Summary

- Experienced React.js developer with 3 years of hands-on expertise in developing dynamic and responsive web application
- Proficient in leveraging React.js libraries and tools to design scalable front-end solutions that meet client objectives and enhance user experience.
- Skilled in crafting clean, maintainable code adhering to best practices and industry standards.
- Proven ability to collaborate effectively in cross-functional teams, communicate technical concepts clearly, and adapt quickly to new technologies and project requirements.
- Passionate about creating intuitive interfaces and staying updated with emerging trends in front-end development.
- Investigate and implement performance optimizations in existing React.js applications, focusing on reducing load times and enhancing the overall user experience through code refactoring and resource optimization techniques.
- Develop a React.js component library to streamline UI development across multiple projects, ensuring consistency and efficiency in front-end design and implementation

Skills

React TS | Typescript | JavaScript | NodeJS | React | MongoDB | Redux | React Query | React Hook form | Internationalization (i18n) | Jira | Google analytics | Google Tag Manager | Web accessibility | Git | HTML | CSS

Work Experience

- | | |
|---|-------------------------------|
| Experion Technologies Software Engineer | January 2022 - Present |
| <ul style="list-style-type: none">• Migrated and upgraded 5 legacy applications to scalable infrastructure solutions.• Engaged in deployment, story estimation, code review, and production support activities• Conducted unit testing and facilitated feature demos, as well as knowledge transfer sessions.• Translated domain requirements into actionable software features, ensuring alignment with project goals• Assumed full accountability for assigned tasks, adeptly managing priorities and time allocation with minimal oversight.• Enhanced development efficiency by creating reusable components, thereby reducing time spent on coding tasks.• Implemented performance enhancements in React.js applications, resulting in improved load times and overall user satisfaction. Conducted comprehensive code refactoring and resource optimization to achieve these enhancements while preserving feature integrity. | |

Education

- | | |
|---|------------------------------|
| Indira Gandhi National Open University, India | 2022 July- 2024 June |
| <ul style="list-style-type: none">• Masters In Computer Application. | |
| Brototype | 2021 July - 2022 Jan |
| <ul style="list-style-type: none">• Full stack development in MERN stack• Developed a fully functional e-commerce application• Integrated Google authentication, twilio, and payment gateways also deployed applications in AWS | |
| Yuvakshetra Institute of Management Studies, India | 2018 July - 2020 June |
| <ul style="list-style-type: none">• Bachelor in Computer Applications from the University of Calicut | |

Projects

- | | |
|--|------------------|
| E-commerce (Gkart) | Sept 2021 |
| <ul style="list-style-type: none">• Created a fully functional e-commerce application• Added features like a cart, order admin panel, payment integration integrated Google authentication and payment gateway• GitHub link - https://github.com/Gladsonms/Node E Commerce | |
| Online examination system (Yuvashiksha) | May 2021 |
| <ul style="list-style-type: none">• Yuvashiksha: Online examination system associated with the University, facilitating exam creation, scheduling, conduct, evaluation, and result publication.• Features include various question types, real-time proctoring with image capture, and measures to prevent plagiarism like disabling copying and pasting during exam• GithubLink - https://github.com/Gladsonms/yuvashiksha | |

Achievements

- Got Award of Excellence Q4 2023 from Experion technologies
