

Manshad Changampalli

Frontend Developer

Work Experience

ISPG Technologies Aug 2023 - Present

Frontend Developer | ReactJS | React Native | NextJS | Tailwind Css | Strapi | GraphQL

Recent Projects

Ultimate Motors Web And Mobile Application

- Developed user scheduling, service history, and roadside assistance features using React Native for efficient vehicle service management
- Integrated real-time tow-vehicle tracking using with Google Maps and third party Rest APIs, enhancing user navigation and visibility.
- Utilized Next.js 14 and Strapi with TypeScript and Tailwind to deliver a high-performance, scalable website showcasing Lamborghini models and stock. with Strapi and GraphQL

MBS E-commerce & Driver Application

- Developed a custom authentication system for the MBS e-commerce web app using Next.js middleware and cookies without any thirdparty libraries
- Created a React Native driver app that uses the driver's current location to enable login for improved security and task management

Confiance Labs Jun 2022 - Aug 2023

FullStack Developer | ReactJS | AngularJS | AWS SAM | Dynamo DB | NodeJS | Figma

Recent Projects

CL Dashboard

- Developed a dynamic dashboard application using AngularJS, providing a responsive interface for managing menu data
- Created a background design feature where users can design their own layouts for TV displays, with drag-and-drop functionality, resizing, and animation effects
- Built the backend with AWS services, using Node.js, AWS SAM, and DynamoDB for scalable and efficient data management

CL Food Menu

- Developed a Progressive Web App (PWA) using ReactJS, optimized for TV display with time-based scheduling for menu items
- Enabled real-time content updates using AWS AppSync with WebSockets, ensuring dynamic data delivery.
- Built the backend using AWS SAM, and DynamoDB, and deployed the PWA on AWS S3 with a continuous deployment pipeline

Freelancer Nov 2020 - Jun 2022

FullStack Developer | ReactJS | NodeJS | MongoDB | Scss

- Worked as a freelancer, developing full-stack applications using React, Next.js, Node.js, Express.js, TypeScript, Redux , Zustand , Tailwind CSS ,and React Query
- Created Figma designs for various freelance projects, ensuring an intuitive and responsive user experience.

Projects

PickMyMaid

<https://www.pickmymaid.com> | Vite React | NodeJS | MongoDB | Chakra UI

- It simplifies maid service bookings, emphasizing robust code quality, scalable state management, intuitive UI design, and effective collaboration. This showcases expertise in frontend developmentCreated Figma designs for various freelance projects, ensuring an intuitive and responsive user experience.

Skills

- ReactJS
- React Native
- Git
- NextJS
- Tailwind Css
- Html
- Javascrip
- Typescript
- Css
- Scss
- Node JS
- CMS (strapi)
- Python
- GraphQL
- AWS SAM
- Open Search
- Dynamo DB
- Redux , RTK Query , ToolKit
- Unit Testing (Jest , vitest)
- React Query
- Hook Form
- Figma

Education

Kerala Technical University

Completed Diploma (Degree Equivalent) in Computer Engineering from AKNM GPTC, Kerala, with a focus on software development and system design.

Govt. Rajahs

Completed Biology Science from Govt Rajas Higher secondary school

Achievement

Completed 80+ LeetCode problems using Python, TypeScript, and JavaScript.

Completed 120+ problems on HackRank, earning 5 badges.

Vending Machine

Vite React | TailwindCSS | Scss | Customised Styles

- The project is a responsive vape selling website integrated within an Android app . Users can view and add vape products to their cart, and checkout by scanning a QR code. It communicates with an Android app using event listeners and global functions, and includes an admin dashboard for product management. The user can customize their dashboard with custom color

Magsman web app

<https://manshaad-cp.web.app> Html5 | Css | Scss | GSAV | Scroll Magic

- I meticulously designed and developed engaging scroll animations to enhance user experience. Proficiently utilized Git for version control and collaboration, ensuring seamless project management

Css Drawing

cssdrawing.com | Scss | Css

- Created intricate designs solely using HTML div elements and SCSS. Leveraged SCSS features to efficiently manage styling, resulting in visually stunning and intricate CSS drawings without additional libraries or frameworks.
