PROJECTS

Amritha Hospital

- Implemented language-switching, SWR for state management, API integration for seamless data flow, and SEO optimization to boost visibility and search ranking.

Paris Group

- Implemented search functionality and API integration for efficient results.

Kent Construction

- Used SWR for state management, developed an EMI calculator, and improved user experience.

Zentral

- Built reusable Next.js components, integrated real-time data APIs, and implemented search functionality for quick, relevant information access.

Samrambham (Dashboard)

- Developed data visualization components for an internal dashboard to support real-time data analysis.

Yateem (Ecommerce)

- Worked on the Choose Lens module, utilizing React Query for data management and fixing bugs for improved performance.
