EXPERIENCE

Web Application Developer

May 2024 – September 2024

RoadE Labs Private Limited

Kochi, Kerala

- Converted multiple websites (RoadE Labs, Streamhall Product Website, Koble Product Website) from ReactJS to HTML, CSS, and JavaScript, enhancing SEO effectiveness by 30%, resulting in improved search engine rankings and faster page load times.
- Completed training on GitHub best practices, enhancing code management, version control, and collaboration, which contributed to more efficient and organized project workflows.
- Conducted a comprehensive post-conversion analysis of SEO metrics, identifying key areas for further optimization that led to a 20% increase in website visibility and higher user engagement rates.
- Implemented animations and interactive elements to boost user engagement, leading to a 15% increase in average session duration.

Jr. Full Stack Developer

June 2023 – December 2023

FutureIK Technologies

Remote

- Utilized modern front-end development frameworks, including React and Redux, to efficiently convert Figma wireframes into interactive web pages.
- Collaborated alongside a cross-functional team of developers, designers, and product managers to develop a user-friendly application using optimized techniques, resulting in a 30% increase in loading speed.
- Conducted in-depth market research to identify customer needs and preferences

Mern Stack Trainee

April 2022 – November 2023

Brototype

Kochi, Kerala

- Completed 10+ projects using the MERN stack, developing a wide range of applications from e-commerce platforms to social media applications.
- Implemented a robust online shopping platform for an e-commerce project, featuring user authentication, product management, and payment integration.
- Managed multiple tasks in a fast-paced environment, ensuring timely project delivery and high-quality outputs.

PROJECTS

RoadE Labs Projects	June 2024
• Converted RoadE Labs’ website, Streamhall Product Website and Koble Product Website from ReactJS to basic HTML, CSS, and JavaScript for better SEO and performance. • Utilized the BEM (Block Element Modifier) methodology for CSS, ensuring a modular, maintainable, and scalable codebase. • Implemented animations across key elements to enhance user engagement and improve the overall user experience.	
FutureIK - CMS <i>(NDA Obligations Apply)</i>	June 2023 - December 2023
• Managed and executed tasks related to front-end development, ensuring high standards of quality and efficiency. • Collaborated with cross-functional teams to achieve project objectives while upholding confidentiality requirements. • Developed and implemented Ant Design, Framer-motion and SQL to support project functionality and user experience.	
Buzzhub <i>Social Media</i> <i>Live Demo</i>	March 2023
• Responsive design • Users can customize themes, colors, dark/light modes, and fonts • GitHub Link : github.com/nithya-aj/BuzzHub_socialMedia	
Vigilate <i>E-commerce web application</i> <i>GitHub Link</i>	July 2022
• Admin panel with sales report, user, order and product management • Implemented a secure "Sign in with OTP verification" system • Wish list, cart, coupons and API integration of PayPal and Razor Pay payment gateways.
