- Manage SEO for a travel website with 250+ pages, optimizing on-page and off-page elements to boost search rankings and organic traffic.
- Conduct keyword research and competitor analysis to inform content strategies.
- Create and optimize website content, meta tags, and headings to enhance visibility and user experience and also optimize Google Business Profile.
- Design engaging social media posters and execute optimization initiatives to increase brand awareness.
- Oversee web hosting management, ensuring optimal performance and security.
- Write SEO-friendly content and manage PPC campaigns to drive targeted traffic.
- Analyze metrics using Google Analytics to provide actionable insights and improve digital marketing efforts.

Techwyse IT Solution | Kochi | India January 2023 - April 2024

Intermediate SEO Analyst

- I developed and implemented comprehensive SEO strategies aimed at improving online visibility and driving organic traffic to websites. This involved optimizing website content, meta tags, headings, and internal links to align with best SEO practices. I conducted extensive keyword research and competitor analysis to identify high-performing keywords and stay updated on market trends. Regular SEO audits were performed to assess website performance, providing actionable recommendations for enhancement.
- In addition to SEO, I crafted engaging, high-quality content and made technical improvements, such as optimizing site speed and ensuring mobile usability. I nurtured relationships with over 100 clients in Canada, offering regular updates and strategic recommendations. My work also included conversion rate optimization to enhance user experience and increase engagement and sales. Furthermore, I managed social media initiatives to boost brand visibility, creating and sharing engaging content that attracted and retained followers.
