

ARUN K

Full Stack Developer

+91 9074464858 • arunrk.official2018@gmail.com • [LinkedIn](#) • Palakkad, Kerala

A highly skilled and results-driven Technology Analyst with over 6 years of experience in software development, application migration, and production support. Expertise in modern technologies such as Azure, React.js, .NET Core, Web API, and SQL Server, with a proven track record in leading teams and managing end-to-end project delivery. Adept at gathering business requirements, developing and deploying web applications, creating SSIS/SSRS reports, and ensuring smooth project execution. Strong communication, problem-solving, and collaboration skills, with hands-on experience in Agile environments and CI/CD processes. I am passionate about continuous learning and committed to delivering high-quality software solutions.

Professional Experience

Infosys Limited

Technology Analyst | 05/2022 - Present

- Currently working on the Intel – Logistics Transportation Solutions Project.
- Part of .NET Blazor project
- Completed Azure Authentication work for existing applications.
- Led Autosys Migration, DBaaS migration, and report generation based on user requirements.
