Profile

Detail-oriented and performance-driven .NET Full Stack Developer with 8 plus years of proven expertise in MVC architecture, VB.NET, C#, SQL Server, and JavaScript frameworks, seeking a challenging position as a .NET Full Stack Developer cum Team Lead. Adept in developing scalable inventory and business management solutions, leading cross-functional teams, and delivering robust enterprise software with focus on code optimization, modular architecture, and performance tuning. Committed to delivering high-quality, maintainable solutions with continuous integration and agile methodologies.

Work Experience

06/2023 – present India	Team Lead / Senior Software Developer EGC Global Service Pvt. Ltd Kerala - Led development of supply chain systems using MVC and .NET framework, ensuring high-performance code to support real-time logistics and operations. - Coordinated with cross-functional teams to enhance user experience and streamline order workflows across the procurement and delivery cycle. - Designed scalable modules using C#, SQL Server, and JavaScript to support demand forecasting, stock monitoring, and fulfillment tracking. - Implemented an automated email subscription system to boost customer engagement and improve visibility in supply chain communications.
01/2020 – 03/2023 India	Software Developer MariApps Marine Solutions Pvt. Ltd Kerala - Developed a digital platform for shipping logistics by building and integrating complex modules using .NET Core and SQL. - Handled back-end logic, data services, and API integrations for automated ENC processing system. - Contributed to a globally used shipping solution adopted by marine service providers.
08/2019 – 12/2019 India	Software Developer SISSCO IT Solutions Pvt. Ltd Kerala - Designed and maintained modules for eCommerce and Inventory software using ASP.NET MVC, SQL Server. - Ensured code quality, conducted unit testing, and participated in deployment cycles.
09/2015 – 12/2018 India	VB.NET Windows Applications Developer Sift Infotech Vyttila Kerala - Developed and maintained desktop applications for inventory, billing, and customer tracking in retail and medical sectors. - Implemented VB.NET-based features for client-specific workflows, including stock management and invoice automation.

Education

- Master of Computer Applications (IT)** – Indira Gandhi National Open University, Kochi | Pursuing
- Bachelor of Computer Applications (IT)** – Ravindranatha Tagore University, Completed 2020
- Intermediate ASP.NET MVC Course** – LCC Computertech, Cochin, Completed in 2019
- Intermediate iOS Mobile Application Development** – Zoople Technologies, Kaloor, Completed 2018
- Bachelor of Computer Applications (IT)** – Assumption College (MG University), Completed 2014

Technical Skills

- **Languages & Frameworks:** VB.NET | C# | ASP.NET | MVC | JavaScript | JQuery | SQL | XAML | TypeScript
- **Tools & Platforms:** Git | Jira | Visual Studio | Xcode | SQL Server | Unit Testing | WPF | Swift 4

Key Competencies and Skills

- **.NET Full Stack Development** – Proficient in building and deploying end-to-end solutions using VB.NET, C#, MVC, and SQL Server.
- **Inventory Management Systems** – Specialized in developing inventory control applications for retail, logistics, and business environments.
- **MVC & Web API Architecture** – Experienced in designing scalable applications using ASP.NET MVC, **Web API**, and integrating **RESTful APIs**.
- **Database Design & Optimization** – Skilled in writing complex SQL queries, procedures, indexing, and performance tuning for high-volume data.
- **JavaScript & Frontend Frameworks** – Strong grasp of JavaScript, JQuery, **Kendo UI components**, and AJAX for dynamic UI interactions and validations.
- **HTML & UI Development** – Proficient in developing responsive user interfaces using **HTML**, CSS, and JavaScript.
- **Version Control & Agile** – Hands-on experience with Git, Jira, and Agile methodology for collaborative software development.
- **Testing & Debugging** – Capable of performing unit testing, bug tracking, and effective debugging for robust application delivery.
- **Deployment & Support** – Knowledgeable in production deployment using **IIS**, issue tracking, and delivering end-user technical documentation.
- **Windows Application Development** – Experienced in creating and maintaining business-critical desktop apps using VB.NET and WPF.
- **Client Communication & Requirement Analysis** – Proficient in gathering business requirements, documenting use cases, and client coordination.
- **Message Queue Handling (MSMQ)** – Familiar with implementing **MSMQ** for asynchronous message processing and system integration.

Certifications

- **MVC Framework Advanced Training** – LCC Cochin
- **iOS Application Development** – Zoople Technologies
- **Git Version Control Essentials** – Internal Training
- **SQL Performance Tuning** – Internal Workshop

Languages

- **English | Malayalam | Hindi**
