

Krishna Prasoon K

Senior Software Engineer

Mob: 9446495841 | Email: Krishnak1992@gmail.com _

Education

- 2013-2016 Master of Computer Applications, Nehru Institute of Engineering and Technology, Coimbatore, Tamil Nadu (Affiliated to Anna University) with an percentage of 73.

Technical Expertise

- Back-end Technologies:** C#, .Net 8, .Net Core, RESTAPI, ADO.NET, LINQ, EF, JSON, JWT, AZURE DEVOPS.
- Frontend Technologies:** jQuery, JavaScript, HTML, CSS.
- Database Management:** MS SQL Server, Oracle.
- DevOps & Software Tools:** Visual Studio, VS Code, TFS, SVN, GitHub, Azure DevOps, SQL Server Management Studio, Eclipse Postman, Open Lens, Splunk, App Dynamics

Professional Summary

Results-oriented .NET Developer with 8 years of professional software experience, including 6.7 years of expertise in .NET technologies. Skilled in designing and developing applications using C#, ASP.NET Core, MVC, Web API, and Entity Framework, Azure Devops. Strong background in SQL Server for database design, query optimization, and data management. Proficient in building scalable, maintainable, and high-performance solutions aligned with business requirements. Possess good debugging and analytical skills, with extensive experience in build activities, production releases, and effective communication with external teams to support business needs. Experienced in handling project-owned virtual machines as per project requirements.

Professional Experience

UST -June 2022 -Present

Developer III -Software Engineering

- The Primark retail solution was developed to provide a comprehensive full-stack web application tailored for supermarket operations. It was built using .NET with Web Forms for the application layer, Microsoft SQL Server as the database, and hosted on virtual machines. The project also adopted Azure DevOps for implementing CI/CD pipelines, ensuring seamless deployment and management across multiple environments.
- Participated in code reviews to maintain quality standards and best practices and analyzed issues and provided timely resolutions
- Formed and updated comprehensive software documentation for the application to ensure clarity and accuracy.

MACOM -Nov 2020 – June 2022

Senior Software Engineer

- The internal Audit Module provides organizations with a comprehensive solution to conduct multiple types of audits. It supports Document Audit, Branch Audit, Center Audit, Fraud Audit and Disbursement Audit, each ensuring complete accuracy in evaluating and improving client operations. The solutions is built using Asp.Net Core, .Net core MVC, Web API, jQuery# and PL/SQL, delivering a robust and scalable architecture.

Icons IT Solutions - Feb 2020 – Nov 2020

Software Engineer

- Designed and delivered web application features that improved customer experience and reduced processing time

Technologies Used: ASP.NET, SQL Server, Windows

Ampliquity Technologies - Dec 2017 – Jan 2020

Software Engineer

- Contributed to the development of web applications and windows using ASP.NET, ensuring maintainability and adherence to coding best practices.

Technologies Used: ASP.NET, SQL Server, Windows

Steerforth PVT LTD - Dec 2016 – Nov 2017

Software Engineer

- Involved in the design and development of web applications, focusing on building responsive and user-friendly interfaces.
- Implemented reusable UI components using HTML, CSS, and Bootstrap, improving consistency and reducing development effort.

Technologies Used: HTML, CSS, Bootstrap
