Professional Summary

Software Engineer with 8+ years of experience in developing, optimizing, and maintaining enterprise applications using .NET Framework, .NET Core, ASP .NET MVC, and modern front-end frameworks (ReactJS, Angular, VueJS). Skilled in SQL Server, Entity Framework, AWS (Lambda, S3), and Azure DevOps. Proven ability to deliver scalable solutions, collaborate with global teams, and enhance business performance through robust, maintainable code.

Experience

Strada [NGA HR] 07/2023 - Present

Product Engineering, Specialist

- Collaborated with cross-functional teams to analyze requirements for payroll processing systems.
- Designed and maintained .NET Core-based applications, improving efficiency and system accuracy.
- Enhanced payroll tools by introducing modular, reusable components for faster feature delivery.

Suyati Technologies 02/2022 - 06/2023

Senior Engineer

- Delivered projects using ReactJS, .NET Core, AWS, and Azure DevOps, improving scalability and uptime.
- Actively participated in Agile sprints, refining requirements with clients and implementing solutions.
- Debugged and optimized applications, reducing defect leakage and improving system performance.

RTC Services 05/2021 - 02/2022

Senior Software Developer

- Developed applications with Angular, VueJS, and .NET Core, enhancing UI/UX and system functionality.
- Coordinated with third-party vendors to integrate critical business services.
- Contributed to design decisions and guided team members on best practices.

Phases India Private Limited 07/2019 - 05/2021

Associate Software Engineer

- Specialized in ASP .NET and Umbraco development for content management solutions
- Analyzed business requirements and prepared technical architecture documentation
- Created detailed task breakdowns and implemented solutions using ASP.NET, Umbraco, and Vue.js

Zerone Consulting Pvt Ltd 11/2016 - 05/2019

Software Engineer

- Responsible for comprehensive unit testing and software configuration management
- Managed packaging processes and resolved technical issues to enhance system efficiency
- Collaborated with Application and Domain architects on system design and implementation

Skills

- Backend Technologies: C#, .NET Core, ASP.NET MVC, ADO .NET, Entity Framework, LINQ
- Frontend Technologies: JavaScript, jQuery, ReactJS, Angular 12+, VueJS, HTML, CSS, Bootstrap, Blazor
- Database Technologies: SQL Server
- Cloud & DevOps: AWS (Lambda, S3), Azure DevOps
- Content Management: Umbraco
- Version Control: Git, TFS

Projects Highlights

Strada Exchange

Contributed to a global payroll platform handling payroll calculations, deductions, taxes, and year-end settlements. Worked on the Exchange module to streamline monthly payroll processing with an in-hand checklist and approval cycle, improving accuracy and efficiency.

.NET Core, SQL Server, Entity Framework, Azure, Web Methods

Discover - Byrider

Legacy car dealership management system modernization using .NET Core and ReactJS. Integrated new functionalities while maintaining backward compatibility with existing systems.

C#, .NET Core, ReactJS, MSSQL, JavaScript, jQuery, Azure DevOps, AWS Lambda, AWS S3 Bucket

iStoreProBe

Developed a warehouse management application for tracking goods across multiple locations with real-time reporting.

C#, .NET Core, Angular 12+, SQL Server

Horesta

Trade association platform for Denmark's restaurant, hotel, and tourism industry, managing 2000+ company memberships and industry operations

C#, Umbraco, ASP .NET MVC, SQL Server, jQuery, Ajax

Invoice Preparation and Management System

International billing standards compliance system for law firms, enabling accurate invoice preparation and client submission processes.

C#, ASP .NET MVC, SQL Server, Dapper, Web Services, jQuery, Ajax, Bootstrap, SSRS

Certifications

Azure Fundamentals

August 2025

Microsoft

Education

SNMIMT Maliankara , N.Paravur , Ernakulam, Kerala

2011 - 2015

B.Tech in Computer Science and Engineering

6.08 CGPA
