

NITHEESH.N.N

Senior Software Engineer

Mob : +91-8590669976

Mail ID : nitheeshn9@gmail.com

DOB : 22 Apr 1991

OBJECTIVE

Focused team leader and effective problem-solver skilled at reviewing, updating, and enhancing code to optimize software usability and performance on diverse platforms. Offering 9 years of experience in software development and team leadership. Desiring to dedicate abilities to a new position with room for growth and advancement.

TECHNICAL SKILLS

- Programming Languages
- Research and Development
- Team leadership abilities
- Microsoft ASP.NET
- Proficient in .Net Core, C#, VB.Net, Web API, Restful API
- LINQ, ADO.Net
- Entity Framework, .Net Frameworks
- SQL server, MySQL
- Full Stack Software Development
- API development experience
- Expert Database Management
- Deep Learning Expertise
- Strong Debugging Abilities
- Problem-solving mindset
- Data extraction
- Design and development.
- Performance Improvements
- Web applications
- Domain & Web Hosting
- Cloud Server
- OS, Hardware and Software Installation
- SOLID Principles
- Requirements Gathering
- Customer Support
- Project Management
- New employee mentoring
- Database Design
- Data Analysis
- Technical Support

EXPERIENCE

Senior Software Engineer| Logic Solutions

Salalah, Oman

Sep 2022 - Current

- Resolved complex issues related to software applications quickly and effectively.
- Integrated third-party APIs into existing systems.
- Investigated production issues reported by users and provided timely resolutions.
- Helped junior developers with debugging code and technical support.
- Performed unit testing on application components prior to release.
- Implemented new features into existing software solutions.
- Recommended enhancements and updates to system software based on performance data and user feedback.
- Tackled development tasks based on system requirements and documented approaches.
- Collaborated with cross-functional team to define features and build powerful and easy-to-use products and customer-facing workflow tools.
- Utilized variety of engineering languages to develop web applications.
- Analysed user requirements to develop software solutions and created technical specifications.
- Participated in regular meetings with stakeholders to discuss project progress, changes, and challenges.
- Deployed applications on server machines with Azure.
- Collaborated with support team to assist client stakeholders with emergent technical issues and develop effective solutions.
- Mentored junior developers, enhancing overall team skills.
- Managed full software development lifecycle from conception to delivery.
- Coordinated testing and validation procedures through software development lifecycle.
- Resolved customer issues by establishing workarounds and solutions to debug and create defect fixes.

PROJECTS

- Trade Plus - Vuejs, C#.NET (API), SQL Server
- MEPOS Plus – C#.Net, SQL Server
- LogicPOS - VB.Net, SQL Server
- DinEx - VB.Net, SQL Server
- Airworks- C#, Entity Framework, SQL Server
- Timeware - C#, MVC, Angular, SQL Server
- LR - C#, MVC, SQL Server
- Quotationer - C#, MVC, SQL Server
- WeAtApps - Xamarin & C#.NET (API), SQL Server
- Techfamous Control Panel - DOTNET (C# Coding), SQL Server
- Carnatic Music Computing - PHP, MySQL
- Space Mail - C#.NET, SQL Server
- Computerized Internal Evaluation Test - JSP, MySQL

Senior Software Engineer | TechLogic Solutions Co

Salalah, Oman

May 2018 - Sep 2022

- Utilized variety of Programming languages to develop web applications.
- OS and Other Software Installations
- Domain Hosting
- Web Hosting
- Handling Cloud Server for different software's and websites
- Analysed user requirements to develop software solutions and created technical specifications.
- Developed, tested, debugged and software programs using JavaScript and HTML and CSS.
- Conducted unit tests on code modules to verify accuracy and functionality of program logic.
- Designed databases to store application data using SQL Server.
- Maintained existing software systems by identifying and correcting software defects.
- Integrated third-party APIs into existing systems as needed for enhanced functionalities.
- Participated in regular meetings with stakeholders to discuss project progress, changes, and challenges.
- Provided technical support to customers regarding product usage and troubleshooting issues.
- Assisted junior developers in understanding complex coding concepts and debugging errors.
- Analysed solutions and coding fixes for software problems.
- Developed web applications using variety of Programming languages.
- Met with stakeholders, product teams and customers throughout system development lifecycle.
- Analysed code and corrected errors to optimize output.
- Worked closely with systems analysts, engineers and programmers to understand limitations, develop capabilities and resolve software problems.
- Reviewed project requirements to identify customer expectations and resources needed to meet goals.
- Creating innovative software solutions for embedded systems, including both new installations and existing hardware.
- Operated with Office 365 and MS Office, proficient in Excel, Outlook and Word.

Software Developer | Techfamous LLP

Infopark TBC, Ernakulam, Kerala

Sep 2016 - May 2018

- Debugged code to identify errors and fix them efficiently.
- Collaborated with team members to ensure successful project completion.
- Researched industry trends to develop innovative solutions.
- Developed REST APIs for mobile applications.
- Deployed web applications on cloud-based platforms like Microsoft Azure.

LANGUAGES

English : Full Professional
Hindi : Full Professional
Tamil : Professional
Malayalam : Native

- Delivered code to meet functional or technical specifications.
- Designed front-end and back-end solutions for test-driven development.
- Optimized program performance by analysing code and making changes as needed.
- Designed database structures to store data securely and efficiently.

Programmer Analyst | Angel Infotech Solutions

Kottayam, Kerala

Oct 2015 - Aug 2016

- Analysed user requirements, developed detailed system design specifications, and wrote program code for applications.
- Tested, debugged, and corrected errors in programs to ensure accuracy and completeness.
- Maintained existing software systems by identifying and correcting software defects.
- Collaborated with other programmers to create optimized programming solutions.
- Created automated scripts to streamline processes and reduce manual labour time.
- Provided technical support on software applications throughout the organization.
- Designed web interfaces for application development with HTML, CSS, JavaScript, and AJAX technologies.
- Monitored performance of applications after deployment in a production environment.
- Participated in team-oriented environments, working cohesively and successfully on multiple projects.
- Developed databases, web forms and file systems to fill different needs.
- Designed code to help company develop necessary applications and websites.

EDUCATION

- MCA – Saintgits College of Engineering (2012-2015)
- Bachelor of Science (Computer Science) – UIT (2009-2012)
