Achievements

Team excellence award

Objective

Results-driven senior software engineer with almost 5 years of experience in web development and application design. I am an expert in Python, Django and agile methodologies. I am passionate about creating innovative solutions and seeking a challenging position at a forward-thinking tech company.

Experience

MAR 2024- PRESENT

Senior Software Engineer | PIT Solutions Pvt Ltd

- Researching and developing various software solutions by consulting with users, investigating problem areas and adhering to the SDLC
- Led the design, development, and deployment of scalable and high-performance Python-based applications, utilizing frameworks such as Django, Flask, and FastAPI.
- Integrated third-party APIs and services, ensuring seamless communication between internal systems and external applications.

JUNE 2021 – FEBRUARY 2024

Python Developer | Webcastle Media Pvt Ltd

- Participate in the entire software development lifecycle, building, testing and delivering high-quality solutions.
- Developed and maintained automated testing frameworks (unit tests, integration tests) to ensure high code quality and reliability in production environments

JULY 2019 – JULY 2020

Junior Python Developer | Strokx Technologies

- Python application development, testing and maintenance
- Developing and maintaining code and application documentation
