SKILLS

Node, React, Expressjs, Nest js, MongoDB, PostgreSQL, Javascript, Typescript, AWS, Swagger UI, Mongodb, JEST, Mocha, GIT, Prisma, Sequelize, TypeORM, Redis, Firebase, CSS, HTML, EJS

EXPERIENCE

Deepnetsoft solutions , kochi • Full stack developer

(12/2020) - Present

- Designed and optimized database schemas in MongoDB and PostgreSQL, improving query performance .
- Collaborated with front-end developers to integrate APIs with React and Flutter applications, ensuring seamless user experiences.
- Ensured the application's security and compliance with industry standards by implementing OAuth2.0 and JWT authentication
- Conducted code reviews and provided mentorship to junior developers, fostering a collaborative and high-performing team environment
- Implemented real-time features using WebSockets and Socket.io, enhancing user engagement and interactivity
- Developed and maintained server-side logic, ensuring high performance and responsiveness to front-end requests
- Integrated third-party services and APIs, including payment gateways, sendgrid and social media platforms- Stripe, Paypal, RazorPay, Google auth, facebook auth, sendgrid.
- Built reusable code and libraries for future use, enhancing the efficiency of development processes (custom npm packages)
- Wrote unit and integration tests using Mocha, Chai, and Jest, ensuring code reliability and robustness.
- Managed database interactions using ORM tools like Prisma and TypeORM.
- Assisted in deploying applications to cloud platforms like AWS .
- Worked in an Agile/Scrum environment, contributing to sprint planning, stand-ups, and retrospectives

Revyire Global, Trivandrum • Software engineer trainee

(12/2019)

- (11/2020)

- Collaborated with front-end developers to integrate APIs with React and android ,ios applications, ensuring seamless user experiences
- Developed and maintained web applications using Node.js, Nest js, React.js Express.js, and MongoDB, PSQl.
- Managed database interactions using TypeORM

PROJECTS

SENDSRIPT

Sendscript is a comprehensive medical management system designed to streamline prescription management and communication between healthcare providers, pharmacies, and patients in the UK. This project features a multi-panel user interface with distinct roles, including Super Admin, Doctor, Pharmacy, and Clinic Assistant, each with tailored functionalities to enhance efficiency and accuracy in the prescription process, Secure login system using GMC and GPHC numbers

Technology Stack : React js ,Express js,AWS,jenkins,PostgreSQL.

COMPREG

Compreg is an event rally management tool used for organizations to add their events , rally's and conduct the events more easily online. The users can easily send their documents and submit the forms through the application and participate in the event .

Technology Stack : React js ,Express,Nest js,AWS,jenkins,mongodb

INFLECT

The Inflect Suite is an innovative platform designed to offer a holistic solution for data center, network, peering, and cloud services. It functions as a free and neutral marketplace, connecting buyers with sellers across a wide range of infrastructure services. By partnering with hundreds of service providers, Inflect ensures the delivery of the most complete and accurate information available in the industry.

Technology Stack : React js ,Django,AWS,PostgreSQL

LUMINAR TECNOLAB

Luminar Tecnolab is an IT finishing school situated near Infopark, Cochin, dedicated to offering advanced software training and facilitating student placements in leading IT companies. The project involved creating a comprehensive Customer Relationship Management (CRM) system and a dynamic website to support the school's operations and enhance student engagement

Technology Stack : React js ,Nest js,AWS,Mongo db,jenkins

JJ MAVELI STORE

JJ Maveli Store is robust, feature rich and scalable e-commerce web and mobile application for groceries .Content management capabilities and inventory management were given prime importance to development process. discount tools and promotion tools, payment methods are included.

Technology Stack : React js Flutter,Express js,AWS,Mongo db.

CONTACTO

Business Cards make it easier to create, view, and share contact information,Business Card displays contact information similar to a paper business card share via email,bluetooth,Scan,

Technology Stack : React js Flutter,Express js,AWS,Mongo db.

SALARY BOOK

SalaryBook is an easy-to-use employee attendance app. A user can use it as an attendance app or register and keep a tab of their employees' attendance and work-shifts. User or company can also use it as a salary book and record employee payroll and maintain effective advance payment management Technology Stack : Android ,Express js,AWS,Mongo db

Technology Stack : React js,Express js,AWS,Mongo db.

EDUCATION

BCA ,Mg university,Kottayam, Graduation Year (2019)

ACHIEVEMENTS

Best employe of the year 2021 - Deepnetsoft solutions

Golden employe of the year 2022 - Deepnetsoft solutions
