WORK EXPERIENCE

DevOps Engineer

PROJECT WORKED ON

UST Global (Worked in Intel Project)

- **Platform-Ci (2020 - 2022)**

The role was to enable new platforms of different variants and tool versions. This platform will be tested and issues are resolved and changes will be pushed and to generate a kit which contain all the details related to the platforms.

- **Ingredient-Ci (2022 - Present)**

The project role was enabling new tools as per the requirement of customer. The needed files and dependencies will be collected in the initial stage and the changes will be pushed to the respected Git Hub repository and pipelines will be created to generate the zip file as per the Customer requirement.

KEY ACHIEVEMENTS

- Spearheaded the design, development, and deployment of an automated CI/CD pipeline using Jenkins and Git for a web application, ensuring all deliverables were completed within a strict timeline.
- Addressing issues and involving in maintaining on pipelines.
- Coordinated with the team to deploy new features in the pipeline, achieving the timely release of multiple critical updates to production without delays.
- Delivered the product according to the customer requests.

EDUCATION

Masters in Computer Application (2016-18)

DiST Angamally, Ernakulam (Dist), Kerala.

Bachelors in Computer Application (2013-16)

Nimala College Muvattupuzha, Ernakulam (Dist), Kerala.

CERTIFICATE

Completed the Course for DevOps Engineer.

SKILLS

- CI/CD Tools : Jenkins, Git, GitLab
- Version Control : Git, GitHub, GitLab
- Containerization : Docker
- Scripting : Python, Groovy, Bash, Shell scripting
- Cloud Platforms : AWS
- Operating Systems : Linux, Windows
- Database Management : MySQL

INTERESTS

- Travelling
- Gardening
- Watching Movies
- Listening Music
