EXPERIENCE

Front End Developer

February 2022 - Present

Workfam FZ LLC | Dubai, United Arab Emirates

Lead web and mobile development with React and React Native to enhance user experience and performance

Key Responsibilities:

- **Developed and maintained** responsive React.js web applications and mobile apps using React Native, delivering optimised experiences for both desktop and mobile users
- **Built data-driven HR dashboards** and interactive web and mobile applications, enhancing user engagement through streamlined UI/UX.
- **Managed deployments** across AWS environments and mobile platforms (Google Play, App Store), overseeing releases across development, UAT, and production environments.
- **Conducted code reviews** and mentored junior developers, promoting adherence to best practices and enhancing team skills.

Co-Founder & Front End Developer

November 2020 - January 2022

Aironext Pvt Ltd | Kochi, Kerala, India

Led the development of user-focused web and mobile applications, using React.js and React Native to deliver efficient, responsive features for an Ed-Tech platform.

Key Responsibilities:

- **Converted wireframes into responsive** React.js web apps and React Native mobile applications, enhancing the overall platform usability.
- **Led feature rollouts** and conducted thorough testing for web and mobile, ensuring stable, high-quality releases.
- **Performed testing** using React Testing Library, delivering bug-free, reliable products.
- **Collaborated on integration** and conducted code reviews, supporting a cohesive, high-performing development team.

Web Developer

February 2020 - October 2020

Eeeteecee World, NA Group | Kasaragod, Kerala, India

Built scalable web applications with Django and CodeIgniter, improving user experience and generating business leads.

Key Responsibilities:

- **Developed** web solutions including a student admissions product, enhancing lead generation.
- **Managed deployments** on VPS and shared hosting, ensuring smooth updates.
- **Provided technical support** and implemented client-requested features.
- **Built responsive interfaces** to optimise accessibility across devices

EDUCATION

Kerala Technological University | Bachelor of Technology in Computer Science & Engineering 2015 - 2019

- GPA: 6.54
