PROFILE

A passionate UI/UX Developer with 5+ years of experience leveraging a strong user-centered design methodology to create responsive and impactful digital experiences. Proficient in the end-to-end design process, from wireframing and prototyping in Figma & Adobe XD to implementing high-fidelity interfaces with React.js and modern CSS. Possesses a problem-solving mindset, a keen eye for typography, color, and layout, and a commitment to creating exceptional user experiences. A collaborative team player effective in Agile environments, with excellent communication skills for articulating design concepts.

TECHNICAL SKILLS

- UI/UX Design: Figma, Adobe XD, Photoshop, Illustrator, Wireframing, Prototyping, Usability Testing, User-Centered Design, Design Thinking
- Frontend Languages: HTML5, CSS3/SCSS, JavaScript (ES6+), TypeScript (basic)
- Frameworks & Libraries: React.js, Tailwind CSS, Material UI, Bootstrap, Redux

-
- Concepts: Responsive Design, Design Systems, Accessibility (a11y), Cross-Browser Compatibility, API Integration, Agile/Scrum
 - Version Control: Git, GitHub
-

WORK EXPERIENCE

Frontend Developer (UI/UX Focus)

Techversant Infotech Pvt. Ltd. | 2022 – Present

- Translated complex design concepts from Figma into functional, responsive, and accessible React user interfaces using Tailwind CSS and Material UI.
- Applied user-centered design principles and a design-thinking approach to build reusable component libraries, dashboards, and e-commerce user flows.
- Collaborated closely with product managers and developers in an Agile setting to effectively articulate design concepts and ensure technical feasibility.
- Conducted usability testing and maintained design system consistency to ensure a cohesive and positive user experience.

Software Engineer (Frontend & UI Design)

Brainwired | 2020 – 2022

- Designed and implemented UI for web and mobile platforms using React, Bootstrap, and CSS3, with a focus on excellent visual design.
 - Created interactive prototypes and wireframes using Figma and InVision to visualize user flows and gather stakeholder feedback early in the process.
 - Partnered with developers and product owners to deliver responsive web applications, demonstrating a strong ability to work collaboratively.
-

MAJOR PROJECTS

- NeoCare | *React.js, Tailwind CSS, Figma, Redux*
 - Led the UI/UX design and development for a digital care home management platform, creating role-based dashboards from initial Figma wireframes.
 - Focused on usability and accessibility in the implementation of complex reporting features (occupancy, staff, incidents).
- Credit4Business | *React.js, Tailwind CSS, Figma, Redux*
 - Designed and developed intuitive dashboards and forms for a loan application platform, ensuring visual consistency and a seamless user journey for EMI tracking.
- Payroll System | *React.js, Material UI, Figma*
 - Built the UI for an employee payroll system, designing efficient salary processing workflows and responsive layouts with MUI components.
- HumanKnowledge | *React.js, Redux, Tailwind CSS*
 - Developed the UI for a research collaboration portal, creating layouts for networking, publishing, and paper recommendations.

EDUCATION

M.Tech – Computer Science (Information Systems) | APJ Abdul Kalam Technological University | 2023 – 2025

B.Tech – Computer Science | APJ Abdul Kalam Technological University | 2015 – 2019
