SUMMARY

Front-End Developer with 4 years of experience building scalable, high-performance web applications using React.js and Vue.js. Focused on crafting intuitive user experiences, optimizing performance, and delivering solutions that streamline operations across diverse industries.

SKILLS

- **Languages & Frameworks:** JavaScript, React.js, Vue.js, HTML, CSS
- **Libraries & UI Tools:** Vuetify, Tailwind CSS, Recoil, Redux, Bootstrap, Vuex
- **Technical Proficiencies:** RESTful APIs, AI Integration, Responsive Design, State Management, Git, GitHub

WORK EXPERIENCE

iLeaf Solutions Pvt Ltd | Software Developer

Oct 2024 – Nov 2025

- Spearheaded the development of intelligent web platforms in legal, healthcare, education, and taxation domains, integrating AI to automate data insights.
- Designed and implemented dynamic dashboards and modular admin panels that reduced manual oversight by 40% through automation and real-time analytics.
- Engineered AI-driven chatbots for instant client query resolution, improving response times and user satisfaction.
- Built scalable, role-based systems enabling multi-organization management and centralized operations.
- Collaborated with cross-functional teams to enhance performance, UX, and scalability using React.js and RESTful APIs.

Fawz Labs | Software Developer

Feb 2024 – Sept 2024

- Delivered a multi-portal online booking ecosystem connecting customers, vendors, and admins for real-time booking management.

- Enhanced vendor operational efficiency by developing tools for reservation handling, profile management, and automated updates.
- Architected responsive, high-performance interfaces using Vue.js and Vuetify, boosting customer engagement metrics.
- Integrated payment gateways and optimized UX flows to increase checkout success rates and user retention.

Leopard Tech Labs | Software Developer

Feb 2022 – Jan 2024

- Designed and developed complex web systems across tourism, education, and conservation sectors, digitizing manual operations.
- Implemented attendance tracking, barcode-based management, and admin control systems, cutting administrative workload by over 30%.
- Developed intuitive dashboards for data monitoring and reporting, enabling faster, data-driven decision-making.
- Created modular, maintainable front-end architectures with Vue.js, ensuring seamless integration with RESTful APIs.

EDUCATION

B.Tech in Information Technology | 2017 – 2021 *Amal Jyothi College of Engineering, Kanjirapally, Kottayam (Affiliated to KTU)*

LANGUAGES

- English, Malayalam, Hindi
