

MUHAMMED RASHID

Full Stack Developer

irashidrcp@gmail.com | linkedin.com/in/rashid-rcp | 989 592 6293 | github.com/Rashid-Rcp

Senior Full Stack Developer with 8+ years of experience designing and scaling production-grade web and mobile systems in e-commerce, healthcare, and autonomous AI agents. Expert in system architecture, API design, real-time applications, and cross-platform solutions and cloud deployment using AWS.

PROFESSIONAL EXPERIENCE

Fullstack Developer

Trova Technologies - Bengaluru, Karnataka

July 2024 - Present

- Built a medical claim pre-verification system with Node.js, React, and MySQL, automating insurance data checks and reducing error rates.
- Engineered a real-time patient monitoring system for ambulance emergency response, integrating vital signs and waveform data using Python, React, Node.js, React Native.
- Built an appointment booking system using Python, React, and MySQL to streamline patient management.
- Developed an AI-powered appointment booking agent using Python, LangGraph, Gemini, RAG, React and MongoDB.
- Leveraged Git, Agile workflows, and AWS for seamless collaboration and deployment.

Software Developer

Webandcrafts - Thrissur, Kerala

March 2022 - Jun 2024

- Lead a team of 6 in developing high-performance e-commerce solutions using Shopify.
- Developed Node.js, React applications and components to extend Shopify functionalities, leveraging Shopify's REST and GraphQL APIs for efficient data retrieval and manipulation.
- Mentored junior developers and managed Git workflows for team efficiency.

Software Developer

Dhub - Kochi, Kerala

July 2017 - February 2022

- Developed WordPress/Shopify plugins, themes, and customizations to align with business requirements.
- Worked closely with UI/UX teams to convert designs to responsive, functional interfaces.

SKILLS
