Trivandrum

SKILLS

- Frameworks & Libraries:** ReactJS, NextJS, .Net, NodeJS, Flutter, Flask
- Programming Languages:** JavaScript, TypeScript, Dart, Python, C#
- Web Development:** HTML, CSS, Tailwind CSS, RESTful APIs, Web Scraping (BeautifulSoup, Scrapy)
- Data Management:** SQL (MySQL, PostgreSQL), NoSQL (MongoDB)
- Cloud & DevOps:** AWS (EC2, Lambda, ECR), Docker, Git

EDUCATION

Diploma in Computer Science

Gov. Polytechnical Collage Attingal

2016-2019

LANGUAGES

- English
- Malayalam
- Tamil

PROFILE

Passionate and innovative React and Next.js Developer with 4 years and 9 months of experience, specializing in front-end development, full-stack solutions, and seamless user experiences. Skilled in crafting advanced digital solutions using React.js, Next.js, and TypeScript, I focus on building responsive, dynamic web applications and integrating APIs for optimized performance. With expertise in state management, component architecture, and server-side rendering, I excel at delivering scalable and efficient front-end solutions. My experience spans diverse industries, including avionics software and AI-driven applications, where I have successfully led development teams and delivered impactful digital products.

WORK EXPERIENCE

Software Developer

Ionaught Technologies Pvt. Ltd

08/2023 - Present

- Led front-end development using Next.js and React.js to create high-performance, interactive, and user-friendly interfaces.
- Designed and implemented scalable component architectures and optimized front-end performance for seamless user experiences.
- Collaborated with backend teams to integrate APIs and ensure smooth data flow and functionality.
- Focused on responsive design and cross-browser compatibility to deliver applications accessible on all devices.
- Streamlined production workflows with modern tools like AWS EC2, automated deployments using AWS Lambda, ECR, and Docker.

Senior Developer

Devoskil Educare Pvt Ltd

09/2021 - 08/2023

- Developed dynamic and interactive front-end applications using ReactJS and Next.js, ensuring seamless user experiences.
- Collaborated on full-stack projects by integrating front-end solutions with Python-based backend frameworks like Flask and Django.
- Built intuitive UI components and optimized performance for responsive, cross-platform applications.
- Leveraged machine learning algorithms and AI-based technologies to enhance app functionality and user engagement in Flutter-based projects.
- Delivered tailored digital solutions across diverse industries, focusing on efficiency and innovation.

Avionics Software System Developer

Thomas Aero LLP

01/2020 - 08/2021

- Designed and implemented back-end systems for UAV software using Python frameworks such as Flask, Django, and Pymavlink.
- Built and customized ground control interfaces and simulated UAV environments using tools like Gazebo and jMAVSim.
- Developed efficient data extraction and analysis pipelines for processing avionics data, ensuring high accuracy and reliability.
- Collaborated with cross-functional teams to optimize UAV performance and streamline software workflows.
- Contributed to the development of scalable and robust solutions tailored to UAV and avionics industry requirements.
